Various	Top-up from Ordinary to Honours	Rules partially written; awaiting testing	Work re-scheduled for September 2009
Various	One year courses – entry at Stage 3 only	Rules written & tested	Testing complete

Issues

- I. The 5 year MPharm course has caused problems as the progression and award 'algorithm' is very complex. A recent meeting has cleared up outstanding issues.
- II. Testing is progressing but the quality of the data is causing some delays as it needs 'cleaning' before it will run properly.
- III. Some awards will not run correctly this year as back ground data is not yet in place (e.g. MEng).
- IV. Training documentation is being updated and trainees are being identified.
