MEET US IN YOUR COUNTRY OR CONTACT YOUR COUNTRY REPRESENTATIVE DIRECTLY
You can meet representatives of the University of Bradford in your own country at events taking place throughout 2019 and 2020. At these events, you can talk to us about studying at Bradford and we can answer any questions you may have.

The University of Bradford also has a global network of educational representatives who can professionally guide you through the application process. Your country representative can help you with your application and communicate with the University on your behalf. They often provide additional services to ensure your smooth arrival in the UK, such as visa application support and help with your travel arrangements.

For details on how to contact your country representative, or where an event is taking place in your country, visit www.bradford.ac.uk/your-country
Welcome from the Vice-Chancellor

A university education is life-changing, opening up opportunities that you just wouldn’t have otherwise

If you choose to study at the University of Bradford you will be supported to be as successful as possible, both personally and academically and in your future career.

Our academic and industry experts are shaping the future of their sectors, and our students gain the skills and experiences they need to go out and make their mark on the world.

We research and innovate with industry, local government and health services, and this research and innovation makes a global impact. Our research is cutting-edge, influencing policy and practice worldwide. 96% of our research was rated world-leading, internationally excellent or internationally recognised in the most recent Research Excellence Framework (2014) findings.

Bradford is a welcoming and culturally rich place to study. We are one of the most diverse, inclusive universities in the UK, and pride ourselves on the warm welcome we give to international students. Our friendly and compact campus is within a five-minute walk of the city centre, with accommodation and all student facilities within the grounds.

Situated in the magnificent county of Yorkshire, the City of Bradford is multicultural, well-connected, and one of the UK’s least expensive student cities. Our international students, who represent more than 130 countries, tell us they feel supported, involved and at home at the University of Bradford.

Our team will support you at every step of your journey - from your first enquiry to securing your visa and arriving in Bradford, throughout your studies, and beyond graduation as a member of the Team Bradford alumni community.

This prospectus is designed to provide everything you need to know about studying at the University of Bradford. I hope you enjoy finding out for yourself what a rewarding experience it is to live and study here, and that we are able to welcome you to campus as a University of Bradford student.

PROFESSOR SHIRLEY CONGDON

2020 UG/PG
Choose the University of Bradford

Your career

At Bradford you get a real-world education.

You will develop the skills employers need, as our courses are designed using input from our industry partners. You put theory into practice in the lab, in the field, and on placement. You’ll graduate with the experience you need to launch your career.

You’ll also have the support of our Career and Employability Services every step of the way:

- One-to-one impartial and confidential appointments for finding part-time work, graduate career planning, and support with applications and interviews for jobs and postgraduate study
- Workshops, including regular careers forums for international students
- Career fairs and networking events
- A database of global and UK job opportunities - for while you’re studying and after graduation
- Internships and placement programmes
- Access to a range of interactive learning resources

Start-up Visa

If you are interested in starting a business and want to extend your stay in the UK after graduation, you can apply for the Start-up Visa scheme. Full details of the scheme can be found on the Gov.UK website www.gov.uk/start-up-visa.

As a University of Bradford student you will receive support from a team of business and social enterprise start-up experts, as well as mentoring from successful entrepreneurs. Email open-innovation@bradford.ac.uk for more details.

This is your family for life

On your graduation day you join an alumni community of 140,000 people around the world.

We’re here to support you for life. Here are a few of the benefits you’ll have:

- Access to Career and Employability Services for five years
- An alumni discount on postgraduate study
- An international network of alumni groups
- Free lifetime membership of the Students’ Union
- Ongoing access to library services
- Graduate and graduate internship programmes

94% of our graduates are in employment or further study within 6 months of graduation*

25th for graduate prospects

Choose the University of Bradford

Spectacular surroundings, in the heart of the UK

Bradford is one of the largest cities in the UK, with a population of over half a million people. The city is proud to be home to a diverse range of cultures, with over 140 different languages spoken across the city.

It is a friendly, vibrant, creative place – and one of the least expensive student cities in the UK. You’ll find an abundance of art, music and theatre on your doorstep, and discover fantastic nightlife at the city’s wide variety of restaurants, venues and clubs. Bradford’s rich Victorian heritage is evident across the city in its beautiful architecture.

Our students live in the heart of the city. Our main campus is a five-minute walk from Bradford City Park, a multi-award winning public space in the city centre. This outstanding development is host to regular events - and is a fantastic place to watch the world go by. It features a 4,000 square-metre mirror pool, spectacular laser light projections, and over 100 fountains.

The city is nestled amongst some of the most stunning and dramatic scenery anywhere in the UK, with miles and miles of unspoilt countryside to explore just a short trip away. It is also a great base for exploring the whole of the UK due to the excellent road and public transport links. There is an international airport nearby too, making it easy to get to Bradford from anywhere in the world.

Visit www.bradford.ac.uk/discover and www.visitbradford.com

Did you know?
- Bradford is the first UNESCO City of Film, and is home to the National Science and Media Museum
- The city has been named Curry Capital of Britain for a record-breaking six years in a row
- There are more than 40 public parks across the city
- The city hosts a dazzling range of street events and international festivals
- Bradford was once the capital of the world’s wool trade
- Around three-quarters of the Bradford district is green space
- The Yorkshire Dales, Peak District, Lake District and North Yorkshire Moors national parks are not far from the city region
Your Students’ Union

The University of Bradford Students’ Union (UBU) help you get the most from your student life. Your elected student representatives - together with a dedicated team of Students’ Union staff - are there to work directly for you.

Every University of Bradford student automatically becomes a member of the UBU. The organisation works to enrich your student experience.

They can help you:
- Get involved in sports, societies, media areas and community volunteering organisations to learn new skills, meet new people and work towards becoming a student leader
- Meet new friends, and discover entertainment and events - on and off campus. From food stalls to weekly live music, talent shows to self-defence classes
- Engage with politics, and connect with like-minded peers
- Access academic or personal advice and support
- Become a student or faculty representative and help improve the quality of your course by speaking to students and raising their issues

For more information on our Students’ Union, visit www.bradfordunisu.co.uk

The UBU is based in the £8m Student Central, a state-of-the-art facility at the heart of City Campus. From here you can get involved with over 100 clubs and societies, and access all the UBU support services.

Student Central is also home to:
- RamAir, our University radio station
- Bradford Student Cinema
- The Bradford Student Newspaper
- Bradford Student Productions
- A fully stocked Union shop
- Bars and entertainment venues, including a wide variety of alcohol-free social activities

Support, advice and representation

Whether you need help with academic, financial, welfare or immigration issues, the UBU Advice Centre is there for you all year round. You can confidentially discuss any issue with the Centre’s trained advisers, who will help you to access any support you need.

We believe that student representation is vital to the student experience. Our student representation system allows your voice to be heard, and makes a real impact on University policies. The system is made up of hundreds of student volunteers, who represent other students within their programme of study and work to raise student issues and bring about positive change on campus.
Team Bradford

Our students take great pride in the welcoming, vibrant and inclusive community on campus – a community dubbed Team Bradford.

Team Bradford is the heartbeat of the student community, representing all our sports clubs, societies, media areas and volunteers. It is the student platform which champions all student successes, achievements and campaigns. When you arrive in Bradford you will become a part of this unique community and ethos.

There are over 100 sports clubs and societies for you to join, all run by students for students. You can even create your own if you and your friends have a great idea.

Sport

Whether you want to take up a sport for fun, fitness, serious competition or simply try something new, the wide range of sports on offer means there’s something for everyone. Sport, and the social side that goes with it, is an integral part of campus life here at Bradford.

Athletic Union Membership allows you to join any of our sport clubs – from American Football to Water Polo – with weekly training and matches against other universities as well as intramural, varsity and colours competitions.

Our sports facilities are fantastic, and include the on-campus Unique Fitness & Lifestyle Centre and the Laisteridge Lane Sports Park which has just completed a £500k programme of renovation and improvement.

For a full list of sports, visit www.bradfordunisu.co.uk/sport

Clubs, societies and volunteering

Our campus is a hive of activity. You can choose to join over 70 active societies, and there really is something for everyone. From politics and religion to yoga and street dance, you’ll discover new passions, learn new skills, and meet like-minded people.

Clubs and societies are loosely grouped around five categories: ACTIVITIES, DEPARTMENTAL, CAMPAIGNS, RELIGIOUS, INTERNATIONAL.

Find out everything on offer at www.bradfordunisu.co.uk/activities

There are also plenty of opportunities to get involved in volunteer work, and contribute to local community projects. Our UBU Volunteering office can help you find the perfect project to fit your schedule, enabling you to make a real difference to people’s lives.

Recognising your contribution

The University of Bradford provides students with a Higher Education Achievement Report (NEAR). It’s a new kind of transcript, helping you show employers the full story of your studies and skill development. Your extra-curricular activities, achievements, university activities and roles are recorded alongside grades. This means your contribution to Team Bradford not only gives you fantastic experiences – it benefits your employability upon graduation.

Student services and support

Our award-winning support services will help you to achieve your full potential - both academically and personally.

We provide all you need to progress through your studies and on into the world of graduate work.

Outstanding support for international students

We go the extra mile for our international students - right from the time our student ambassadors greet you at the airport upon your arrival.

The Language Centre is here to support you throughout your studies with expert tuition in academic English language skills through free workshops, one-to-ones and online helpdesks and resources. Choose which courses you want to study, for example grammar, pronunciation, academic vocabulary, reading and writing. www.bradford.ac.uk/language-centre

The UBU International Student Centre (Room 101) is a friendly space for study, cross-cultural interaction and student-led foreign language learning. They also organise lots of cultural events, day trips around the UK and even sporting events such as cycling and hiking.

Pastoral care, counselling and advice

When you begin studying with us you’ll be allocated a Personal Academic Tutor, who will be happy to discuss any area of your programme of study. If you’re living in a halls of residence, there’s always a warden on hand to answer any queries or concerns, day or night. Our International Student Adviser is also here to help you when you arrive and throughout your stay.

Confidential free advice and counselling is available through our Students’ Union and the team of friendly, qualified counsellors. All our counselling and advice services are confidential and free of charge. For more information, visit www.bradford.ac.uk/counselling

Access to the services you need

We provide a comprehensive range of facilities and services, including:

- An on-site nursery, offering excellent child care
- Our own health centre, the Bradford Student Health Service
- Religious counsellors and a dedicated prayer space
- A Disability Service
- An Eye Clinic, providing eye examinations at a reduced rate
- A student-led Physiotherapy Clinic

Study support and careers

The Academic Skills Advice Service is open to all students, and will work with you to develop your academic, interpersonal and transferable skills.

We have well-stocked libraries and excellent IT facilities across campus. At our City Campus these facilities are open 24 hours a day during term time, meaning you’ll always find a place to get things done on campus.

Our Career and Employability Services can help you develop your employability skills through regular workshops and interactive learning resources. Our friendly staff will also help you find local part-time work during your studies.

Our support doesn’t end once you graduate - our Alumni Office maintains contact with tens of thousands of graduates, organising reunions, networking opportunities and developing overseas branches. You’ll be a lifelong member of the University of Bradford community.
Our international students are guaranteed a place in The Green so you can be sure of a fantastic start to your student journey in Bradford.

The Green is a sociable, secure, home-from-home - and one of the most sustainable developments of its kind in the world. It’s just a short walk from the city centre, so you’re close to everything you need. The Green has a welcoming community atmosphere, perfect if you’re living away from home for the first time.

Safe and secure
- Staffed 24 hours a day
- A team of wardens live on-site, providing advice and support
- A security team look after the site from 19:00pm – 7:00am, Monday to Friday, and throughout the weekend
- The Accommodation team, located at the heart of The Green, are on hand to deal with any general queries or issues

A great social life
- The Green Ambassadors, a team of students who work to make your time at The Green unforgettable, run a full programme of events, trips and competitions
- Our townhouses and apartments are designed to encourage sociable living, with open plan communal spaces built and equipped to the highest specifications
- A biodiversity pond water feature, surrounded by barbecue sets, seating and grassed areas, is a hub of social activity at the heart of The Green

High quality accommodation
The Green is the first student residential project in the country to achieve the BREEAM accolade of ‘outstanding’, due to its innovative sustainable design features. Set in beautifully landscaped gardens, The Green provides plenty of places to relax and socialise.

It is made up of townhouses and apartments, with 1,026 bedrooms designed around a village concept. Both accommodation types feature bright, modern and fully-equipped kitchen and living spaces. In townhouses, bathrooms are shared by two bedrooms, while apartments have en-suite bathrooms.

The Accommodation team administer lettings and tenancy contracts, and provide all the services in The Green to students. The team are based at The Orchard, which also houses the student launderette.

For full details, visit www.bradford.ac.uk/accommodation

Private accommodation
Privately rented accommodation in Bradford is relatively inexpensive compared to most university towns and cities in the UK. Weekly rents in the city can range from £50 to £130 or higher, excluding bills.

We work closely with Unipol Student Homes to ensure our students find the best housing they can, and that private accommodation is of a good standard, measuring and checking standards through the robust Unipol accreditation schemes.
Take a tour of The Green online or in virtual reality

www.bradford.ac.uk/virtual-experience
Opportunities abroad: a life-changing experience

Get informed! Get involved! Get inspired!

Students who go abroad are viewed as independent, self-reliant, adaptable, open-minded, persistent and tolerant. Studying, doing a work placement or an international short programme abroad will strengthen your leadership, problem-solving, and communication skills, all of which are important for employers. The QS Global Employer Survey Report found that six out of ten employers around the world give extra credit for a student with international experience, and more than 80% said they actively sought graduates who went abroad for study, work placements, or short international programmes.

The University of Bradford encourages students from all levels to go abroad for a study placement, work placement or short international programme. We have one of the most comprehensive exchange schemes in the UK that covers:

1. Erasmus+ (Europe)
   - study placements
   - work placements (term-time, summer breaks, research and recent-graduates)

2. Erasmus+ (outside of Europe)
   - study placements

3. Worldwide exchanges and overseas placements (outside of Europe)
   - study placements
   - overseas placements (work placements, internships, electives)

4. ISEP – International Student Exchange Programme (Europe and outside of Europe)
   - study placements

5. Short international programmes (Europe and outside of Europe)
   - Study in China Programme
   - Nanjing International Youth Exchange Program
   - electives (work or study)
   - summer schools

We are keen to explore with you the options and funding that we have available. Please contact the International Opportunities Team or visit our website: www.bradford.ac.uk/exchanges

The academic workshops, the contact with Chinese businesses, and the engagement with Chinese culture was an amazing experience of the 2018 NIYEP, which I will carry with me for the rest of my life.

TARIQ ASHRAF, MENG CHEMICAL ENGINEERING, 2018 NANNING INTERNATIONAL YOUTH EXCHANGE PROGRAMME (NIYEP), CHINA

I believe that studying abroad will have expanded my future career prospects and allowed myself to show my own leadership with confidence and mental strength.

Applying to Bradford

The application process

Making an application to study at Bradford is easy. There are two ways to apply:

Apply through a University representative

We have a network of official University of Bradford representatives across the globe, who can guide you professionally through the application process.

They work with you, helping you to understand and meet the requirements for moving to the UK to study, and will contact the University on your behalf.

For a full list of representatives in your area please see our website: www.bradford.ac.uk/your-rep

Apply direct

To apply for an undergraduate programme:

- All direct undergraduate applications must be submitted online via the Universities and Colleges Admissions Service (UCAS)
- Full instructions for International and EU students can be found on the UCAS website www.ucas.com
- The UCAS code for the University of Bradford is: BRADF B56

Further information can be found at www.bradford.ac.uk/undergraduate/apply

To apply for a postgraduate taught programme:

- You can apply online through our website - www.bradford.ac.uk/postgraduate/apply
- You will be instructed to upload copies of your qualifications online
- Most of our postgraduate taught courses start in September each year, but there are some courses starting throughout the year

To apply for postgraduate research:

- You will need to write a detailed research proposal, setting out the subject your research will address
- Typical periods of registration for full-time research are 15 months (minimum 12) for an MPhil, and three years for a PhD
- Most of our research students start in September, but it may be possible to start in January, April or July

Further information on making an online application, available research projects and funding can be found at www.bradford.ac.uk/postgraduate/research-degrees/apply

Undergraduate entry tariff

Undergraduate entry requirements given on course pages in this Prospectus are expressed as UCAS tariff points. You can see how many points your qualification has by checking the international web pages: www.bradford.ac.uk/your-country

UCAS have a tariff calculator which gives details for A Levels, International Baccalaureate (IBO) and some other qualifications: www.ucas.com/tariff-calculator

Your offer, and your arrival

Once our Admissions teams have considered and approved your application, you will be sent an offer to study at the University of Bradford. This will contain detailed information of what you need to do to accept your place.

After you accept your offer, the University will contact you with arrival and orientation information to ensure your move to Bradford goes smoothly. If you require a visa to study in the UK, the Visa Support Team will be on hand to answer any of your questions.

It is important to apply for your course as early as possible, so that you can plan your acceptance and travel to arrive in good time for orientation. You can start applying for a degree a year before the start date.
Applying to Bradford

English language requirements and pathways to study

Having a good command of the English language is essential to truly benefit from your studies in the UK.

Requirements to study at Bradford
If your first language is not English, you need to reach a level of English approved by the University before you can be admitted onto any of our undergraduate or postgraduate courses.

Accredited by the British Council for the teaching of English in the UK

The British Council inspected and accredited the University of Bradford (The Language Centre) in February 2017. Strengths were noted in the areas of quality assurance, learning resources, academic staff profile, course design, teaching, care of students, accommodation, and leisure opportunities.
THERESH ARE THREE PATHWAYS AVAILABLE TO YOU:

1. Direct entry to a degree programme, having achieved the required level on an approved English language test such as IELTS, TOEFL or Pearson Test of English. The University also has its own test, the Bradford Academic Skills and Language Test (BASALT), allowing direct entry to degree programmes and for entry to pre-sessional programmes for students not on a Tier 4 visa. For further information visit: www.bradford.ac.uk/language-centre/language-test

   In addition to this, some English language qualifications from overseas secondary schools may be accepted. Check our website for a full list of approved English tests: www.bradford.ac.uk/international/entry-requirements

2. A Pre-sessional English Language Programme (PREP), leading to direct entry onto a degree programme for students with:
   a) the required level of English, and who would like to improve their English and academic skills
   b) 0.5 - 2.0 IELTS points below the English language requirement for their chosen course of study

   Pre-sessional English programmes prepare international students for life and study at a British university, and provide an effective and enjoyable way for students to improve their English language and academic study skills.

   The classes are structured to suit the academic teaching styles and kinds of learning projects that you will encounter during your studies at the University of Bradford.

3. An International Foundation Year leading to direct entry onto a degree programme for those with up to 1.0 IELTS points below the English language requirement, and/or school leaving qualifications that are below the requirements for the degree you wish to study.

   These courses provide tuition in the subject areas you need, alongside tuition in the English and academic skills that will help you succeed in your academic studies. For further details of the International Foundation Years available, please see pages 22-25.

We are a founder member of NCUK, who offer pathway programmes at over 60 delivery centres across the world.

Students who pass an NCUK programme are guaranteed a place at one of the 16 members of the consortium, including Bradford.

To find out more, visit www.ncuk.ac.uk

BADRIYA AL-ZADJALI, FROM OMAN
MSC IN ADVANCED COMPUTER SCIENCE

The Pre-sessional English course was a very good experience for me. It helped me meet new friends and get to know Bradford. It also gave me an introduction to academic study; essay writing, note taking during lectures and how to use citations.

SOURCE: THE BRISTOL ONLINE SURVEY, 2015-6

100% of students thought the lecturer was responsive to their needs, and that the course was well organised and delivered
Applying to Bradford

Scholarships and living costs

Scholarships

*University scholarships*

We invest £4m in scholarships each year. Awards are given on the basis of academic excellence, and to enable students from developing countries to study at Bradford.

To search for scholarships you may qualify for, details on how to apply, and scholarship criteria, visit [www.bradford.ac.uk/scholarships](http://www.bradford.ac.uk/scholarships). Not all scholarships require an additional application, and are applied automatically.

*Other scholarships and funding*

The British Council can advise on sources of financial support for international students. Many scholarships only cover postgraduate degrees; others cover course fees for specific subjects, while some are only available for specific institutions.

Visit [www.educationuk.org](http://www.educationuk.org) for further information.

Living costs

When you’re planning your budget for UK study, it’s not just the course fees that you need to think about. You need money for accommodation, utility bills, council tax, food, books, equipment and, of course, a social life.

For visa purposes, as a new student to the UK, you will need to show that you have **£1,015 per month for the first nine months** of your course to use for your living costs, in addition to your tuition fees for the first year of your course.

**Bradford – an affordable city**

Bradford is one of the least expensive cities in the UK, which means groceries, rent and other expenses are likely to be cheaper. We have given a few examples of typical costs below; just remember these don’t include any leisure activities, clothing, subscriptions to services (like Netflix) or membership of sports teams or societies:

<table>
<thead>
<tr>
<th>TYPICAL LIVING COSTS (2019-20)</th>
<th>42 WEEKS</th>
<th>51 WEEKS</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Accommodation depending on type</strong></td>
<td>£3,360 - £6,510</td>
<td>£4,080 - £7,905</td>
</tr>
<tr>
<td><strong>Food (based on £50 per week)</strong></td>
<td>£2,100</td>
<td>£2,550</td>
</tr>
<tr>

<td><strong>£9,495 - £13,320</strong></td>
</tr>
</tbody>
</table>

* Accommodation may be in Halls of Residence (standard rooms or en-suite rooms available) or in private housing. Halls of Residence rents usually include all utility bills. Rent in private housing is generally for room only, and costs of utility bills are additional. Please check with your accommodation provider for further details.
Applying to Bradford

Tuition fees

Higher education is one of the greatest investments you will ever make. The knowledge and skills that you graduate with will open doors to a more prosperous future.

The quality of our teaching is high, as is the international status of our qualifications.

* For full information, including fees for placement years, certain programmes in the Faculties of Health Studies, Life Sciences, Management, Law & Social Sciences, research programmes, Dubai-based programmes and alternative postgraduate qualifications, please visit [www.bradford.ac.uk/money/fees](http://www.bradford.ac.uk/money/fees)

This information is correct at time of publication, but may be subject to change. Please consult the University of Bradford website for up-to-date information.
Our academic structure

Our faculties

The University of Bradford is made up of four academic faculties which each cover a broad range of specialisms.

Faculty of Engineering & Informatics (FoEI)
Faculty of Health Studies (FoHS)
Faculty of Life Sciences (FoLS)
Faculty of Management, Law & Social Sciences (FoMLSS)

The faculties are based at our City Campus, and share many facilities.

Your course will belong to one of these four faculties, and will usually be made up of tutorials, seminars, lectures and lab or practical work.

Our academic year runs from September to the end of May. The majority of taught courses start in September (a few also have January start dates). Most of our undergraduate courses comprise three or four years of full-time study. All full-time taught Master’s and research programmes involve study over 12 calendar months.

For more information about the different academic faculties and their facilities, visit www.bradford.ac.uk/study/faculties

International and EU students are encouraged to attend the special programme of orientation events for international students, which will be held throughout International Student Enrolment and Welcome Week prior to the start of teaching, normally in the middle of September.

For more information on preparing to study in the UK, visit www.bradford.ac.uk/study and www.bradford.ac.uk/international/journey

EXPLORE OUR FACULTIES
Tour the campus and facilities from wherever you are in the world
www.bradford.ac.uk/virtual-experience
The University of Bradford is a technology university with over 50 years’ of cutting-edge research experience. Our research is ranked in the top 50 in the UK (HEFCE, 2014) for research quality with three-quarters being classed as either world-leading or internationally excellent.

Supporting our research students
Our research students benefit from outstanding support services, including: a comprehensive induction; personalised, flexible training opportunities; highly qualified, dedicated supervisory teams; state-of-the-art equipment and learning facilities; an International Study Centre and a Language Centre; and regular shared learning activities with peers, encouraging interdisciplinary conversations.

We also offer a dedicated space for research students: the PGR Lounge. The area provides group study facilities, bookable meeting spaces, quiet study areas and social spaces – the perfect environment to collaborate and network with peers.

For details of scholarships and tuition fees, see pages 16 to 17.

We offer a range of postgraduate research degrees for international students. We harness technology for the good of society through our three overarching research themes. We welcome postgraduate research applications related to these themes:

Advanced Healthcare
Innovative Engineering
Sustainable Societies

Postgraduate Research Lounge, a dedicated space for research students providing group study facilities, bookable meeting spaces, quiet study areas and social spaces. Take a 360-degree tour online: www.bradford.ac.uk/virtual-experience

University of Bradford | Postgraduate

Research strengths by faculty

The Faculty of Engineering and Informatics
We deliver impact and economic benefits to people worldwide, developing and implementing innovative engineering and manufacturing technologies.

We have over 180 PhD researchers from around the world, many funded by research institutions and companies in the UK and internationally.

Our research themes include:
- Advanced Materials
- Applied Computing
- Automotive Systems Engineering and Automotive Product Development
- Chemical and Process Engineering
- Communications and Networks
- Computing, Visualisation and Imaging
- Manufacturing Systems and Supply Chains
- Medical Engineering and Healthcare Technologies
- Modelling, Simulation and Optimisation of Complex Systems
- Sustainable Environments
- Theory of Computation

The Faculty of Health Studies
We have a vibrant community of research students originating from across the world. Many are qualified health professionals, and include doctors, nurses, midwives, physiotherapists, radiographers and occupational therapists.

Our research is internationally significant, undertaken in collaboration with the National Health Service and other partners. We are home to an Alzheimer’s Society-funded Doctoral Training Centre, training the next generation of dementia research leaders.

We welcome applications that fit into our research centres, which house our professors and multidisciplinary teams of researchers and PhD students:
- Living Well with Dementia
- Inclusion and Diversity
- Management, Quality and Safety
- End-of-life Care
- Health Inequalities (including Public Health)
- Health Technologies

The Faculty of Life Sciences
We are home to a community of over 100 research students, supported by a mixture of Research Council studentships, health charities, industrial partnerships, government sponsorship and internal scholarships.

Research students have access to cutting-edge facilities, dedicated to fundamental and applied research.

Our joint Allied Health submission with the Faculty of Health Studies, for the 2014 Research Excellence Framework, classified 92% of our research as world-leading or internationally excellent.

We have an international reputation in:
- Cancer Therapeutics
- Skin and Hair Follicle Research
- Materials Chemistry
- Medicines Development and Pharmaceutical Sciences
- Archaeological Sciences
- Vision Science

The Faculty of Management, Law and Social Sciences
We undertake world-leading research addressing management and organisational issues. All students have access to Faculty research facilities, seminars and networking opportunities.

We offer a dedicated research hub, shared by staff and students. We offer PhD degrees in a range of subject areas, including: Accounting, Finance and Economics, International Business, Marketing and Branding, People Organisations and Entrepreneurship, Peace Studies and International Development, Psychology, Sociology and Criminology, Social Work and Social Care. We also offer the DBA for senior managers, bringing together academic theories and concepts with business and management practices.

We also offer the Bradford Doctor of Business Administration (DBA) for senior managers, bringing together academic theories and concepts with business and management practices.

We offer PhD degrees in a range of subject areas, including:
- Economics
- Accounting and Finance
- Human Resource Management and Organisational Behaviour
- International Business and Entrepreneurship
- Marketing
- Law
- Peace Studies and International Development
- Psychology
Foundation years

Engineering International Foundation Year

This course is aimed at students who do not have the necessary mathematics or science qualifications for registration directly onto an engineering degree course.

This foundation year offers an entry route to an Engineering degree at Bradford. All of the degree courses offered by the Faculty of Engineering and Informatics are available with an optional 12 months of industrial training immediately after your second year.

Successful completion of this programme will allow you to progress onto the first year of any of the following BEng (Hons) courses in the Faculty of Engineering and Informatics:

- BEng (Hons) Biomedical Engineering
- BEng (Hons) Chemical Engineering
- BEng (Hons) Civil and Structural Engineering
- BEng (Hons) Mechanical Engineering

If you proceed onto one of our BEng (Hons) or MEng degrees from the Foundation Year, these courses are accredited by the relevant professional institution.

For details, visit www.bradford.ac.uk/courses

Course modules have flexibility depending on your chosen specialist area of engineering, with fundamental core modules providing a grounding for all engineering disciplines.

C = Core module  O = Option module

Start date for this course is September

Current modules 2019/20. Programmes are reviewed annually.

Your studies in the Foundation Year will give you an insight into the different branches of engineering and technology.

Entry requirements

A levels:

- 72 UCAS Points
to include AS-level Maths or Physics, plus GCSE English Language and Maths minimum grade C or 4 (equivalents accepted).

Minimum IELTS 5.5 or equivalent.
Certificate of International Foundation Studies

The Certificate of International Foundation Studies is a pre-degree access programme which helps you, as an international student, to develop advanced English language skills, higher-level study skills and subject-related knowledge.

You will:
- be taught by language and subject specialists
- develop academic-level English language skills
- receive dedicated pastoral support in choosing your career path

This course is designed for students who do not have the necessary qualifications for registration directly onto a degree course.

Successful completion of this programme will allow you to progress to degree-level programmes in the following faculties:
- Faculty of Health Studies
- Faculty of Life Sciences
- Faculty of Management, Law and Social Sciences
- Faculty of Engineering and Informatics

For a full list of eligible courses see www.bradford.ac.uk/international-foundation

The Certificate of International Foundation Studies is a pre-sessional English class

* Two option modules are chosen, dependent on the course you wish to progress onto

C = Core module  O = Option module

Start date for this course is September

Current modules 2019/20. Programmes are reviewed annually.

Entry requirements

72 UCAS points

or please see the Your Country pages at www.bradford.ac.uk/your-country for details of the requirement qualifications from your country.

You will be required to have an IELTS certificate to prove your level of English language. The IELTS requirement is normally 1.0 IELTS points below the English requirement for your chosen degree programme. If you do not meet the IELTS requirement, you can take a University of Bradford pre-sessional English course - see pages 14-15, and go to www.bradford.ac.uk/language-centre
Foundation in Clinical Sciences/Medicine

Entry onto the Clinical Sciences course, either directly or via our Foundation Year, allows students a unique and exciting opportunity to study science and health. The course has a clinical focus and a strong emphasis on anatomy, physiology and employability skills. The course is informed by research, clinical expertise, and multiprofessional teaching.

With an integrated knowledge and understanding of science and health-related issues, you will be in an excellent position to pursue a variety of careers within the health sector or pharmaceutical industries. Clinical Sciences graduates have progressed to postgraduate study, leading to careers in medicine, the healthcare sciences and other healthcare roles such as:
- Physician Associate
- Dentist
- Healthcare Manager

It also gives you the transferable skills you need to launch a career in areas such as teaching or research.

| Major Project Production | C | C | C | C |
| AI for Games | O | O | O | O |
| Effects Animation and Dynamics for VFX | O | O | O | O |
| Application Programming and Development | O | O | O | O |

Strong links with international companies such as DreamWorks, Framestore, Aardman, Rockstar, Double Negative and MPC

Entry requirements
112 UCAS points - BBC at A level, with no specific subject requirements. Plus a minimum of GCSE English Language and Maths at grade C or 4 (equivalents accepted).

Minimum IELTS 6.0 or equivalent.

Current modules 2019/20. Programmes are reviewed annually.
Virtual and Augmented Reality

Degree: BSc (Hons)
UCAS Code: I700 3yr FT
I701 4yr SW

First-Year Modules
- Application Programming and Development
- Creativity and Imagination
- Introduction to 3D Computer Modelling and Animation
- Introduction to Digital Visual Effects
- Introduction to Virtual Reality
- Moving Image Production

Second-Year Modules
- Augmented Reality
- Cinematography
- 3D and VR Workflows and Theory
- Look Development, Lighting and Advanced Rendering
- Digital Compositing and Post-Production for VR
- Advanced Game Technology and Development
- Motion Capture and Digital Scanning

Final-Year Modules
- Individual Project
- Major Project Pre-Production
- Major Project Production
- Motion Capture and Digital Scanning
- Facial Modelling and Animation
- AI for Games
- Effects Animation and Dynamics for VFX

C = Core module  O = Option module
Start date for all these courses is September
Current modules 2019/20. Programmes are reviewed annually.

Entry requirements
112 UCAS points - BBC at A level, with no specific subject requirements. Plus a minimum of GCSE English Language and maths at grade C or 4 (equivalents accepted).
Minimum IELTS 6.0 or equivalent.

Applied Artificial Intelligence

Degree: BSc (Hons)
UCAS Code: I400 3yr FT

Our BSc Applied Artificial Intelligence programme will help you gain key state of the art skills and understanding to make a successful contribution to a career in the exciting and dynamic field of artificial intelligence. The programme focuses on AI processes and systems and the impact they have on the real world. The programme is tailored to the individual needs of the student and the specific area of AI you may be interested in - be it developing new intelligent software systems for healthcare or designing new AI interfaces or developing ethics or regulations for AI.

Entry requirements
112 UCAS points - BBC at A level in at least one technical subject such as Mathematics, Computing or Chemistry, Electronics, Science, Design and Technology (Systems and Control) or Physics. Applications are welcome from students with non-standard qualifications with relevant work experience.
Minimum IELTS 6.0 or equivalent.
Advanced Biomedical Engineering

**DEGREE**
MSc 12 months full-time

**STAGE ONE AND TWO MODULES**

**STAGE THREE MSc MODULE**
MSc Project (Spans stages one, two and three) C

---

**Entry requirements**
A second-class Honours degree or equivalent in Chemical Engineering or Petroleum Engineering.

Minimum IELTS 6.0 or equivalent.

---

Choice of three routes: Chemical Engineering, Petroleum Engineering, or Polymer Engineering.
Advanced Civil and Structural Engineering

Faculty of Engineering and Informatics | Postgraduate

Entry requirements
Second-class Honours degree or equivalent in a relevant discipline.

Candidates who do not fulfil the normal entry requirements but have extensive industrial experience in a related area are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

Advanced Mechanical Engineering

Entry requirements
A second-class Honours degree or equivalent in a relevant discipline.

Candidates who do not fulfil the normal entry requirements but have extensive industrial experience in a related area are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.
Automotive Systems Engineering

DEGREE

STAGE ONE AND TWO MODULES
- Modelling and Optimisation
- Big Data Systems and Analytics
- Team Project
- Automotive Tribology and Noise Vibration & Harshness
- Vehicle Powertrain and Dynamics

STAGE THREE MSc MODULE
- MSc Project

= Core module  = Option module
Start date for this course is September
Current modules 2019/20. Programmes are reviewed annually.

Entry requirements
A second-class Honours degree or equivalent in a relevant discipline.

Applications from candidates with physics, mathematics or computer science degrees including relevant background in maths and physics will be considered on an individual basis.

Candidates who do not fulfil the normal entry requirements but have extensive industrial experience in a related area will be considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

Big Data Science and Technology

DEGREE

STAGE ONE AND TWO MODULES
- Software Development
- Big Data Systems and Analytics
- Statistical Data Analysis
- Data Mining
- Information Theory and Data Communication
- Mobile Application Development
- Concurrent and Distributed Systems
- Data Visualisation

STAGE THREE MSc MODULE
- MSc Dissertation

= Core module  = Option module
Start date for this course is September
Current modules 2019/20. Programmes are reviewed annually.

Entry requirements
2:2 or above
In computer science, computer engineering, informatics or other computer-related subjects (including management disciplines, e.g. finance, economics, business studies, etc.)

Those who do not fulfil the normal entry requirements but have extensive industrial experience in a related area are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

This programme is targeted at Engineers who wish to both broaden and deepen their knowledge.

Provides industry with graduates that are ready and able to develop solutions to address challenges for big data analytics and developing big data systems.

Equips graduates with the cutting-edge knowledge and skills to work in the industry as a data scientist, big data architect, or big data analyst.
Faculty of Engineering and Informatics | Postgraduate

Entry requirements
2:2 or above
In computer science, computer engineering, informatics or other computer-related subjects (including management disciplines, e.g. finance, economics, business studies, etc.)

Those without a first degree but with other relevant experience are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

Gain additional qualifications in: Certified ISO/IEC 27001 Lead Implementer; and CEH v8 Ethical Hacking

Carry out dissertation projects with real-world clients through the new Internet of Things Innovation Lab and the Enterprise Computing Centre
Filmmaking

DEGREE | MA 12 months full-time
STAGE ONE AND TWO MODULES
 Cinematic Language C
 Independent Filmmaking C
 Film Industry Practices C
 Post-Production C
 Short-Form Commissioning C
 Visualisation and Storyboarding C

STAGE THREE MA MODULE
 MA Project C

C = Core module  O = Option module
Start date for this course is September
Current modules 2019/20. Programmes are reviewed annually.

Entry requirements
2:2 or above
In an area relevant to your proposed programme of study.
Or
Any subject, together with skills and experience in a relevant area.

Those without a first degree but with extensive related industrial experience are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

Smart Grids and Energy Systems

DEGREE | MSc 12 months full-time
STAGE ONE AND TWO MODULES
 Smart Grids and Power Systems Analysis C
 Big Data Systems and Analysis C
 Internet of Things C
 Smart Grids Operation and Economics C
 Research Methods and Skills C
 Sustainable Energy C

STAGE THREE MSc MODULE
 MSc Dissertation C

C = Core module  O = Option module
Start date for this course is September
Current modules 2019/20. Programmes are reviewed annually.

Entry requirements
2:2 or above
or an equivalent overseas qualification, in an area relevant to your proposed programme of study, for example: Computer Science, Electrical Engineering, Mechanical Engineering, Industrial Engineering, Civil Engineering, Maths, or Physics.

Those who do not fulfil the normal entry requirements but have extensive industrial experience in a related area are considered on an individual basis.

Minimum IELTS 6.0 or equivalent.

*C = Core module  O = Option module
Start date for this course is September
Current modules 2019/20. Programmes are reviewed annually.

**Entry requirements**

A first degree in a relevant subject area however applications are also welcome from students with non-standard qualifications but with significant relevant experience.

Minimum IELTS 6.5 or equivalent.

Designed to help to progress as an international healthcare professional.

Delivered by a team of experts, with teaching and support rated as excellent by former students.
PhD (Faculty of Health Studies) Doctorate

You will receive excellent guidance, advice and support from experienced, knowledgeable and approachable supervisors on a regular basis. You will be able to select a range of modules which meet your learning needs from our variety of short courses and modules, and choose from a selection of seminars aimed specifically at students undertaking health-related research.

Entry requirements
A First or 2:1 Bachelor’s degree (or overseas equivalent)
A higher degree from an approved university or institution (or in the case of Professional Doctorates, as specified in individual course regulations)
Minimum IELTS 6.5 or equivalent.

Start date: February or October (alternative starting dates may be considered).

We invite applications from enthusiastic research students wishing to explore an aspect of practice related to our six research clusters (see www.bradford.ac.uk/research/faculties/health-studies/clusters), which house our professors and multidisciplinary research teams. They are:
- Living well with dementia
- Inclusion and diversity
- Management, quality and safety
- End-of-life care
- Health inequalities
- Health technologies

Dedicated, experienced staff, and purpose-built areas within the Faculty specifically for our PhD students

Awarded the Queen’s Anniversary Prize for Higher and Further Education for world-leading work to improve the lives of people living with dementia

Field Recording Skills  |  C  |  C
Themes in World Archaeology  |  C
Principles of Forensic and Crime Scene Investigation  |  C
Independent Study for Forensic Scientists  |  C

SECOND YEAR MODULES

Archaeological Fieldwork  |  C  |  C
Interpreting the Past  |  C
Biometrics and Human Identification  |  O
Laboratory Science  |  C
Forensic Examination and Analysis of Physical Evidence  |  C
Human Remains and Environmental Evidence  |  C
Understanding Artefacts  |  O
Prehistoric Societies  |  O
Heritage Management with GIS  |  O
Celts, Anglo-Saxons and Vikings  |  O
Bioarchaeology: Humans, Plants and Animals  |  O
Virtual Anatomy for Forensic Scientists  |  O
Statistics and Databases for Forensic Scientists  |  C
Relevant Elective module  |  C  |  O

FINAL YEAR MODULES

Dissertation  |  C  |  C
Forensic Archaeology  |  C
Forensic Anthropology  |  C
Interpretation and Presentation of Forensic Evidence for Forensic Science  |  C
Advanced Archaeological Fieldwork  |  O
Landscapes, Climate and Society  |  O
Current Research in Archaeological Sciences  |  O
Bones, Bodies and Burials  |  O
Archaeology in Contemporary Society  |  C
Forensic Taphonomy  |  O
Biomolecular Approaches to the Study of Human Skeletal Remains  |  O
Relevant Elective module  |  O  |  O

C = Core module  |  O = Option module
Start date for all these courses is September

Current modules 2019/20. Programmes are reviewed annually.

Top 20 in the UK for Archaeology (GUARDIAN UNIVERSITY LEAGUE TABLES 2020)

Entry requirements

A levels:
Forensic Archaeology and Anthropology - 112 UCAS points - BBC to include an A level science subject, plus Pass in the Science Practical, plus a minimum of GCSE English, Maths and a science at grade C or 4.

Archaeology - 112 UCAS points - BBC There are no specific A-level subject requirements, but you must have a minimum of GCSE English at grade C or 4.

Minimum IELTS 6.0 or equivalent.
**Biomedical Science**

**DEGREE**

BSc (Hons)

**UCAS CODE**

C900 3yr FT

**FIRST-YEAR MODULES**

- Developing Professional Skills 1
- Human Physiology 1 & 2
- Introductory Biochemistry
- Cell and Tissue Biology
- Human Genetics and Developmental Biology
- Introductory Microbiology

**SECOND-YEAR MODULES**

- Developing Professional Skills 2
- Immunology, Haematology and Transfusion Science
- Medical Microbiology
- Clinical and Analytical Biochemistry
- Molecular Genetics

**THIRD-YEAR MODULES**

- Medical Genetics
- Biology of Disease
- Research Topics 2

Choose from a range of option modules, see website

C = Core module  O = Option module

Start date for all these courses is September

Current modules 2019/20. Programmes are reviewed annually.

Entry requirements

A levels:
Biomedical Science BSc
120 UCAS points - BBB

to include Chemistry or Biology grade B, plus Pass in the Science Practical. Plus a minimum of GCSE English, Maths and 2 sciences at grade C or 4.

Minimum IELTS 6.0 or equivalent.

Entry requirements
2:2 or above in a science subject (e.g. Biosciences, Pharmaceutical Science, Chemistry, Forensic Science, Geology, Environmental Science, Archaeological Science) or substantive equivalent experience.

Minimum IELTS 6.0 or equivalent.
Faculty of Life Sciences  Postgraduate
Bioinformatics

DEGREE: MSc 12 months full-time

STAGE ONE AND TWO MODULES
- Principles of Bioinformatics: C
- 'Omics' Techniques in Biology and Healthcare: C
- Personal and Professional Development: C
- Research and Analytical Methods: C
- Experimental Design: C
- Advanced Bioinformatics: C

STAGE THREE MSc MODULE
- MSc Research Project: C

C = Core module  O = Option module

Entry requirements
2:2 or above
in any aspect of the biological sciences or biosciences or related life sciences courses.
A medical degree would also be appropriate.
Minimum IELTS 6.0 or equivalent.

Opportunity to specialise in particular aspects such as polymer chemistry, inorganic materials, supramolecular chemistry or nanosciences

Materials Chemistry

DEGREE: MSc 12 months full-time

STAGE ONE AND TWO MODULES
- Research Skills, Professional Development and Commercial Awareness: C
- Research Project - Preparatory Investigations: C
- Inorganic Materials Chemistry: O
- Fundamentals of Nano and Supramolecular Materials: O
- Introduction to Polymer and Colloid Science: O
- Computational Crystal Engineering: O
- Materials in Electronics: O
- Materials Characterisation: O

STAGE THREE MSc MODULE
- MSc Research Project - Advanced Investigations: C

C = Core module  O = Option module

Entry requirements
2:2 or above
in chemistry, chemical engineering, materials science, biochemistry or other degrees with a significant element of core chemistry (or 2:2 with 2 years’ relevant industrial experience).
Minimum IELTS 6.0 or equivalent.

Opportunity to specialise in particular aspects such as polymer chemistry, inorganic materials, supramolecular chemistry or nanosciences

C = Core module  O = Option module

Start date for this course is September

Current modules 2019/20. Programmes are reviewed annually.

Entry requirements

2:2 or above in a relevant area such as biological sciences, chemistry, pharmacy, pharmacology or pharmaceutical sciences.

Minimum IELTS 6.0 or equivalent.

Strong interdisciplinary approach provides expertise across pharmaceutical sciences and process engineering.

Receive advanced training in the area of preclinical toxicology with an emphasis on the molecular in vitro and in vivo aspects of toxicological assessment.
Master by Research (MRes)

The programme is organised around research-engaged learning, where the classroom and lab are sites for the production and application of new knowledge. The curriculum is designed around the principle of ‘spiral learning’ where core skills, knowledge, and competencies are reinforced and developed as you study.

The approach to assessment for learning is aligned to both the spiral curriculum and the principle of research-engaged learning. It is also authentic in encompassing the disciplinary and professional skills you will need to pursue a career in the associated scientific and academic fields.

See our website for further details and the study modules on offer.

Entry requirements
To be admitted to the programme, applicants must have an undergraduate Honours qualification (minimum 2:1) or equivalent in a scientific discipline, usually within chemistry, biology, pharmacy, biomedicine, or related fields. Candidates with a 2:2 or equivalent degree who can show relevant experience will also be considered.

For North American students a GPA of normally 2.5 and above (on a scale of 4.0), or an equivalent, is required.

Minimum IELTS 6.0 or equivalent.
PhD (School of Pharmacy & Medical Sciences) Doctorate

Apply to study your PhD at the Bradford School of Pharmacy and Medical Sciences, which encompasses multidisciplinary research in the Centre of Pharmaceutical Engineering Science and is also research active in the following areas:
- Education Innovation Research and Development
- Medicines Development and Pharmaceutical Sciences
- Medicines Optimisation
- Pharmacology and Experimental Therapeutics
- Institute of Cancer Therapeutics

See our PhD Research page www.bradford.ac.uk/life-sciences/pharmacy-medical-sciences/phd-research/ to view a range of funded (research council, charity, industry) and self-funded projects under each theme. You are welcome to contact the listed supervisors before submitting your application.

We welcome applications for postgraduate research degrees all year round, and will consider alternative starting dates when the timing doesn’t fit with our two enrolment intake dates of October and February.

Entry requirements
Selection of PGR students will be subject to successful interview by the supervisory team and one independent member of academic staff with significant PGR supervisory experience.

Minimum IELTS 6.0 or equivalent.

Our clinical and clinically relevant research is sourced through academic staff expertise and clinical collaborators

Doctorate in Medicine (MD)

This programme is a research degree aimed at qualified doctors with clinical experience, providing a tailored training component accompanying student doctoral research.

Strong links between clinicians and the University are already in place and the student will develop their research questions with their clinical line manager and University supervisor(s) before undertaking appropriate experimental laboratory and/or clinical work to answer these and produce a thesis of novel publishable work.

The University is known for its strength in drug discovery (particularly cancer), diseases of the skin, and vascular disease.

C = Core module  O = Option module

Start date for this course is September.

Current modules 2019/20. Programmes are reviewed annually.

**Entry requirements**

2:2 or above in a relevant subject (may include social science, humanities, or business and management). Non-law graduates will need to complete and pass a 2-week introduction to Law programme.

Minimum IELTS 6.5 or equivalent.

The School of Law is highly experienced in the teaching of Law in an international and global context.
An intensive two-week induction at the beginning of the course ensures that all students, including those from non-law and/or international backgrounds are taught the core concepts and academic skills necessary to achieve the learning outcomes.

Students take 180 credits of modules comprising a taught element of 120 credits, and a 60 credit dissertation.

Students will be required to take 40 credits of core modules covering subjects on Principles of Regulation and Enforcement; and Sustainable Development Law in Business and Society which will explore core themes and provide the necessary background and wider context of the modern environment within which businesses operate and their regulation.

In addition, students will be required to take a total of 60 credits of modules from the following (20 credits each) which will provide specific and in-depth knowledge in specialist aspects of commercial law:

- Commercial Dispute Resolution
- International Commercial Contracts and E Commerce
- International Intellectual Property Law
- International Banking and Finance
- Trade and Investment Law
- Cyber Law

The final 20-credit module of the LLM in International Commercial Law is an elective which can either be chosen from the list above, from a wider pool of postgraduate subject modules from the School of Law such as Business, Human Rights and Environment, Petroleum Law, Climate Change Law, or modules from other departments such as the School of Management.

Entry requirements
2:2 or above or equivalent in any subject, or relevant work experience at graduate level.

Minimum IELTS at 6.5 or equivalent.

Gain the core principles of regulation and enforcement within a modern commercial environment

For entry onto our postgraduate law degrees, previous law qualifications are not required
An intensive two-week induction at the beginning of the course ensures that all students, including those from non-law and/or international backgrounds are taught the core concepts and academic skills necessary to achieve the learning outcomes. Students take 180 credits of modules comprising a taught element of 120 credits, and a 60 credit dissertation.

Students will be required to take 40 credits of core modules covering subjects on Principles of Regulation and Enforcement, and Sustainable Development Law in Business and Society which will explore core themes and provide the necessary background and wider context of the study of this subject. In addition, students will be required to take a total of 60 credits of modules from the following (20 credits each) which will provide specific and in-depth knowledge in specialist aspects of human rights and development:

- Public International Law
- International Human Rights Law
- International Humanitarian Law
- Migration & Asylum Law
- Peace keeping and Peace Building
- Business Human Rights and Environment
- Policy Analysis of Governance and Development

The final 20-credit module of the LLM in International Commercial Law is an elective which can either be chosen from the list above, from a wider pool of postgraduate modules from the School of Law or from other departments such as the School of Management.

**Entry requirements**

- 2:2 or above or equivalent in any subject, or relevant work experience at graduate level.
- Minimum IELTS at 6.5 or equivalent.

For entry onto our postgraduate law degrees, previous law qualifications are not required.

Apply the principles of human rights and development within a global context.
Natural Resources and Environmental Law and Policy (LLM)

The programme is designed to accept not only Law graduates but students from other fields of study. An intensive two-week induction at the beginning of the programme will ensure that all students, including those from non-law and/or international backgrounds are taught the requisite basic concepts and academic skills necessary to allow them to effectively achieve the learning outcomes.

Students will be required to take 180 credits of modules comprising a taught element of 120 credits, and a 60-credit dissertation on the subject area. All modules are 20 credits each. Students will be required to take 40 credits of core modules covering subjects on Principles of Regulation and Enforcement; and Sustainable Development Law in Business and Society which will explore core themes and provide the necessary background and wider context of the study of this subject.

In addition, students will be required to take a total of 60 credits of modules from the following subjects which will provide specific and in-depth knowledge in specialist aspects of human rights and development:
- Climate Change Law
- Petroleum Law
- International Environmental Law
- Natural Resource Governance
- Business, Human Rights and Environment

The final 20-credit module of the LLM in Natural Resources, and Environmental Law and Policy is an elective which can either be chosen from the list above, or from a wider pool of postgraduate modules from the School of Law or from other departments such as Management or Peace Studies and International Development.

Entry requirements
2:2 or above or equivalent in any subject, or relevant work experience at graduate level.

Minimum IELTS at 6.5 or equivalent.

Gain an outstanding grasp of the specialist aspects of human rights and development law and its application.

For entry onto our postgraduate law degrees, previous law qualifications are not required.

Minimum IELTS 6.5 or equivalent.

The first global pioneer university and academic centre for the Circular Economy

WORLD No.1 for career progression Distance Learning MBA (FINANCIAL TIMES 2017)
The DBA is the pinnacle of management education. Designed for experienced senior managers and professionals looking for the next challenge in their career, the DBA provides an unprecedented fast-track to the status of global expert in a particular field.

You will make a significant contribution to the advancement of knowledge in your area of expertise while studying part-time and remaining at work, allowing you to practically apply your knowledge directly back to the workplace. You will open up a new realm of personal development and career opportunities including teaching at international business schools, high-level consultancy and board-level roles.

Your fellow DBA students are an elite group of about 25 international managers, who you will meet, network and share ideas at several taught sessions in year one and two, and during your research phase via regular peer review workshops in different locations.

**Entry requirements**

You should have a Bachelor's or Master's degree, plus an MBA (or equivalent) from an accredited institution. You will also need a high level of fluency in English and a minimum of five years' relevant managerial work experience.

The programme is taught, supervised and examined in English, so you must be able to prove your fluency in the language if it is not your first language.

Minimum IELTS 6.5 or equivalent.

PhD

Research is at the heart of our teaching and learning at Bradford and at the forefront of new business and management ideas. Studying a PhD degree at University of Bradford School of Management, Law or Social Sciences, places you at the core of the University’s intellectual life and at the forefront of its worldwide quest to provide future generations with an essential flow of new business and management ideas.

We also encourage you to engage in teaching activities, providing you with valuable experience of higher education teaching and prepare you for the job market.

Special Features
- Specialist research centres and groups
- Personal supervision arrangement
- International, experienced, and highly committed faculty

Entry requirements
You should have a Bachelor’s or Master’s degree from an accredited institution. You will also need a high level of fluency in English.

The programme is taught, supervised and examined in English, so you must be able to prove your fluency in the language if it is not your first language.

Minimum IELTS 6.5 or equivalent.

90% of our research demonstrates considerable impact on business practice and policy (REF 2014)
Getting here
How to find us

Getting here
Bradford is easy to get to, located right in the middle of the UK with excellent road and rail links and its own international airport. An extensive coach service also connects most parts of the country with Bradford’s Travel Interchange. The postcode for our campus is BD7 1DP (if you’re using a Sat Nav use BD7 1AZ).

By road
Bradford is connected to the national motorway network by the M62 and M606, which we recommend you use if arriving from the south, east or west. Use the A629/A650 via Skipton and Keighley if arriving from the north west, or the A1 or A19 if arriving from the north east. The University is clearly signposted on all major routes into the city. Approximate travel distances are:

- London 200 miles (320 km)
- Leeds 8 miles (13 km)
- York 33 miles (53 km)
- Manchester 35 miles (56 km)
- Birmingham 120 miles (192 km)
- Edinburgh 200 miles (320 km)

By rail
Bradford Interchange has extensive rail links, many of which involve changing at Leeds. There are some direct trains from London to Bradford. From Bradford Interchange you can take the 576 buses which leave at regular intervals and pass the City Campus, taking 5 minutes. Or walking from the city centre only takes around 10-15 minutes. Approximate journey times are:

- London (King’s Cross) 3 hours
- Leeds 20 minutes
- York 1 hour
- Manchester 1 hour
- Birmingham 3 hours
- Edinburgh 4 hours
- Glasgow 4 hours

For more information and maps see www.bradford.ac.uk/maps

By air
Leeds Bradford Airport has a range of daily domestic flights to/from destinations across the UK, as well as regular connecting flights to/from Amsterdam, Dublin, London and other major European locations. Manchester Airport, 50 miles (80 km) away, serves a range of international destinations.

If you are flying into Leeds Bradford or Manchester airports on certain dates prior to starting your course in September, you can make arrangements in advance to be picked up at the airport using our airport pick-up service. There is also a regular bus service from Leeds Bradford Airport to Bradford Interchange.

International exhibitions and fairs
Each year representatives from the University visit education exhibitions and fairs around the world. We would be delighted to meet you at one of these events. To find out if we are coming to an education fair or exhibition in your country, please see www.bradford.ac.uk/your-country

Overseas representatives
The University has appointed overseas representatives in various countries. They can provide course counselling and advisory services, and they can also help you to apply for your course or visa (if you need one). Find out if we have an overseas representative near where you are at www.bradford.ac.uk/your-rep

In addition, the University has a regional hub in Dubai where you can find out more about studying in Bradford or apply for one of our courses. The Regional Hub, Dubai also serves as a local centre for Bradford's prestigious Executive MBA programme. The University also has a regional office in Beijing, China, helping students from throughout the East Asia region.

The University of Bradford – Confronting Inequality: Celebrating Diversity™
The University of Bradford is committed to promoting equality, diversity and an inclusive and supportive environment for students, staff and others closely associated with the University in conformity with the provisions of its Charter.

Alcohol Impact policy
We at the University of Bradford are committed to providing students with a safe and responsible social life, which is demonstrated by our involvement with the NUS Alcohol Impact programme (http://alcoholimpact.nus.org.uk) and our increasing range of alcohol-free social activities.

For a statement detailing our aims please visit www.bradford.ac.uk/alcohol-impact

We can arrange for this material to be transcribed into an accessible format such as Braille, large print, E-text (compatible with screen-reading software) or digital audio such as CD. Please contact Course Enquiries.

Terms & conditions
This Prospectus has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information contained in this Prospectus is fair and accurate at the time of publication. It is issued for the general guidance of students looking to study at the University of Bradford from September 2020, rather than being definitive. We will use our best endeavours not to make any changes to our academic programmes; however we recognise that exceptionally some changes may be necessary for the benefits of our students or to comply with external requirements. All changes will be made in line with the University’s programme approval, monitoring and review procedures as set out in the Academic Quality Handbook at www.bradford.ac.uk/academic-quality-handbook

Major alterations will be communicated to applicants as appropriate.

The University welcomes comments on its programmes from students, parents and other parties.

Email: marketing@bradford.ac.uk

Explore the University of Bradford and the city using our Virtual Experience. There are over 75 360-degree tours of our campus, teaching and learning spaces, accommodation, and social spaces that give a feel for student life at Bradford. You can even use a VR headset to view the tours.
