Module Aims

To provide an understanding of the practical limitations of the standard economic analysis of the firm and to examine the impact of managers on the decision making process in modern organisations.

Outline Syllabus
Quantitative Demand Analysis; Forecasting and Estimation; Competitive Markets; Imperfectly Competitive Markets and Market Power; Creation of Barriers to Entry and Contestable Markets. The Theory of Individual Behaviour; Managerial Behaviour and Decision Making; Pricing Strategies for Firms with Market Power; Firm Performance and Strategy; Risk and Decision Making; The Economics of Information; Long Term Investment Decisions;

Module Learning Outcomes

On successful completion of this module, students will be able to...

1.1. Understand the theories and concepts relating to the management of organisations.

2.1. Apply microeconomic analysis to the operation of firms and markets.

2.2. Recognise the limitations of microeconomic theory in explaining real world behaviour.

2.3. Demonstrate the extent of the relationship between market structure and organisational performance.

3.1. Use evidence to test theoretical propositions.

3.2. Identify the limitations of logical analysis when applied in a business context.

Learning, Teaching and Assessment Strategy

The module will use lectures to deliver core content alongside a programme of seminars which will provide the opportunity for you to work through problem-based questions, review case studies, and present short answers to questions on the nature of managerial behaviour in organisations. Lectures will in some cases be used to conduct workshops on particular aspects of theory with brief student presentations. Independent analysis of case studies will be used to develop your autonomous learning skills. Formative feedback will be provided in seminars on your work relating to problem-based questions, and two tests will be used (one in each semester) to provide formative feedback to students on their progress. Summative assessment will be in the form of one 2 hour exam at the end of the module.
