Module Aims

This multi-professional module is for students providing support for people facing loss across the lifespan

Examine interaction of historical, social, cultural, political & prof issues influencing the development of supportive, palliative & end-of-life care provision for those facing loss.

Develop skills necessary to appraise contemporary research to identify evolution of psychosocial theories relating to communication & bereavement support
To consolidate & enhance communication through development of communication skills and collaboration with other professionals.

**Outline Syllabus**

The evolution of supportive, palliative and end-of-life care within the UK and internationally
Loss across the lifespan; family systems, autonomy, children's bereavement
Principles of palliative and end-of-life care
Philosophical perspectives on loss
Sociology of death, dying and loss, attitudes to death and dying in contemporary society, including public health
Political and professional influences including contemporary health policy.
Ethical and legal principles and influences including advanced care planning, withholding and withdrawing treatment, mental capacity and decision-making in complex care; loss in dementia
Multi-professional and multi-agency team collaboration
Research and evidence based practice
Defining loss and bereavement, assessment of risk in bereavement support
Psychological perspectives including complicated grief, depression, taboo, death anxiety, attachment theory and terror management theory
Principles of advanced communication skills and reflection in clinical practice

**Module Learning Outcomes**

*On successful completion of this module, students will be able to...*

1. **1.1** Demonstrate a systematic understanding of factors which have been and are currently influential to the development and delivery of supportive, palliative and end of life care services, including bereavement care.

2. **1.2** Critically discuss the opportunities and challenges of establishing an evidence base for supportive, palliative and end of life care.

2. **2.1** Critically evaluate arguments, assumptions and data and make judgement on a range of theoretical approaches to palliative, end of life and bereavement care within their professional role and that of a multi-professional team and future developments in service provision.

3. **2.2** Critically discuss cultural, societal, organisational and communication issues influential to the support of those facing loss.

3. **3.1** Demonstrate initiative and personal responsibility in independent learning.

3. **3.2** Demonstrate the critical application of evidence to inform practice and personal development.

3. **3.2** Critically evaluate own communication skills when supporting those facing loss.

**Learning, Teaching and Assessment Strategy**

Research informed key lectures will deliver core content; providing students with the opportunity to acquire knowledge and develop conceptual understanding (LO 1.1,1.2, 2.1, 2.2, 3.2, ). Seminars and group learning will be used to facilitate teacher/learner/ peer dialogue and inter-professional discussion and further develop and challenge conceptual understanding ( LO 1.1, 1.2, 2.1, 2.2, 3.1,3.2,3.3 ). Directed study provides students with the opportunity to undertake reading, participate in enquiry based learning, address
individual learning needs and contextualise learning to the students own area of practice (LO 1.1, 1.2, 2.1, 2.2, 3.1, 3.2). VLE will be used to provide access to online resources, lecture notes & external links to websites of interest. Labs and practicals will be held, if appropriate, to acquire new skills. Other consists of opportunities to participate in practice, enhance acquisition of skills and gain competence (LO 1.2, 2.1, 2.2, 3.1, 3.2). Formative assessment and feedback at individual tutorials, meetings and through electronic communication will facilitate reflection and student self-assessment. LO 1.1, 2.1, 2.2, 3.1, 3.2, 3.3 are assessed by Mode of Assessment 1. LO, 1.1, 1.2 & 2.2 are assessed by Mode of Assessment 2. Skills in practice are assessed by mode of assessment 3
