Module Aims

To develop skills and attitudes that will enable the student to demonstrate professional conduct and to achieve clinical competence in the care, monitoring and support of service users and their families during clinical practice. To understand the need for evidencing clinical skills and to record the acquisition of competences in a clinical skills portfolio.

Outline Syllabus

Module Learning Outcomes

On successful completion of this module, students will be able to...

1. Describe the underpinning structure and function of the ambulance services and contemporary paramedic practice;

2. Evaluate the evidence base that informs contemporary paramedic practice.

3. Demonstrate competent basic patient assessment and monitoring skills;

4. Demonstrate competent use of commonly used ambulance equipment in the management of common disease presentations under the direction of a clinician;

5. Apply policies and procedures in the maintenance of a safe clinical working environment.

6. Communicate effectively with service users, professional colleagues and others ensuring meaning is clear and unambiguous;

7. Demonstrate personal learning achievements by collecting a portfolio of evidence;

8. Demonstrate the ability to practice in accordance with the Health and Care Professions Council Guidance on conduct and ethics for students.

Learning, Teaching and Assessment Strategy

Clinical skills workshops and clinical practice placement will enable students to practice and implement packages of care. Students will work with link lecturers in clinical skills facilities and allocated clinical practice mentors in the practice setting to develop the knowledge and skills required to achieve the learning outcomes.

Clinical skills practical workshops will deliver core content; providing students with the opportunity to develop knowledge and conceptual understanding. Directed study will include preparation for the workshops. Clinical practice based learning will occur supported by link lecturers and practice educators.

Learning outcomes 01,02 and 05 will be facilitated through clinical skills practical workshops supported by web-based resources, Outcomes 03,04,05,06 and 07 will be facilitated through practical workshops/exercises, simulated clinical skills and clinical practice placement.

Formative assessment will occur throughout the module in skills workshops and practice placement areas, with opportunities to undertake mock assessment and receive feedback. Summative assessment 1 will assess learning outcomes 01,02,03,04,05,06,07and 08.
Summative assessment 2 will assess learning outcomes 03, 04, 05, and 06.
