Module Aims

To develop the students knowledge and understanding of the theoretical issues that can influence the teaching, learning and assessment process and their application in practice settings. To facilitate the development of skills and attributes to enhance clinical learning experience, engage in assessment in practice and contribute to the development of the learning environment.

Outline Syllabus
Concept and characteristics of the clinical learning environment for example: development of resources, use of technology, professional code(s) of practice, ethical dimensions, quality audit, quality enhancement and standard setting.
Communication: giving and receiving feedback and resolving disagreements, equality and diversity, supporting reasonable adjustments when disabilities are declared, documentation and record keeping.
Reflection: models of reflection, applying learning gained from reflection and evaluation.
Learning and teaching: skills and strategies, use of contracts, curricula.
Assessment: competence, judgement, reliability and validity, criterion referencing, inter-professional dimensions.
Roles: mentorship, clinical supervision, precetorship.
NMC Framework to support learning and assessment in practice to include: establishing effective working relationships, facilitation of learning, assessment and accountability, evaluation of learning, creating an environment for learning, context of practice, evidence based practice, leadership.

Module Learning Outcomes
On successful completion of this module, students will be able to...

1. Evaluate learning, teaching and mentorship theories, principles of assessment, concepts of reliability, validity and factors that influence judgement relevant to learner needs.
2. Critically reflect upon the responsibilities and boundaries of your role in supporting learning, teaching and assessment working within a legal, ethical and professional framework cognizant of your professional accountability.
3. Critically analyse the practice setting as a learning environment and develop effective evidence based learning opportunities.
4. Evaluate your contribution to on-going audit and quality enhancement of the practice learning environment.
5. Negotiate learning needs and use appropriate assessment strategies to offer guidance, provide feedback, facilitate and support learning and assessment, and reflect upon the effectiveness of your role in those processes.
6. Advance and reflect upon existing interpersonal skills to enhance effective learning and teaching and comprehensive assessment.
7. Contribute to and integrate the involvement of others through effective team working in the practice learning environment.
