Module Aims

To develop the students’ knowledge and understanding of the theoretical issues that can influence the teaching, learning and assessment process and their application in practice settings. To facilitate the development of skills and attributes to enhance the clinical learning experience, engage in assessment in practice and contribute to the development of the learning environment.

Outline Syllabus

Concept and characteristics of the clinical learning environment for example: development of resources, use of technology, professional code(s) of practice, ethical dimensions, quality
Module Learning Outcomes

On successful completion of this module, students will be able to...

1 1.1 Evaluate learning, teaching and mentorship theories, principles of assessment, concepts of reliability, validity and factors that influence judgement relevant to learner needs.
1.2 Critically reflect upon the responsibilities and boundaries of your role in supporting learning, teaching and assessment working within a legal, ethical and professional framework cognisant of your professional accountability.

2 2.1 Critically analyse the practice setting as a learning environment and develop effective evidence based learning opportunities.
2.2 Evaluate your contribution to on-going audit and quality enhancement of the practice learning environment.
2.3 Negotiate learning needs and use appropriate assessment strategies to offer guidance, provide feedback, facilitate and support learning and assessment, and reflect upon the effectiveness of your role in those processes.

3 3.1 Advance and reflect upon existing interpersonal skills to enhance effective learning and teaching and comprehensive assessment.
3.2 Contribute to and integrate the involvement of others through effective team working in the practice learning environment.

Learning, Teaching and Assessment Strategy

This module will be delivered with attendance in a classroom setting. Students will be expected to engage with course materials throughout the module to address learning outcomes 1.1, 1.2, 2.1, 2.2. Students will also need access to learners during the module in order to meet learning outcome 2.3, 3.1 and 3.2
