Module Aims

To critically utilise knowledge and understanding of the research process to undertake a selected primary research project relevant to a health/ social care setting.

Outline Syllabus

Revision of the stages of the research process including critical review of literature and appraisal of existing knowledge, formulation of a clearly defined research question/ hypothesis for investigation, research ethics, sampling, data collection and analysis methods, interpretation and discussion of findings. Writing an abstract and writing for publication. Poster design. The remainder of the syllabus will be directed by individual student needs and depend upon the nature and scope of the research project. This will be
This module has pre-requisite of module HGR-711T.

**Module Learning Outcomes**

*On successful completion of this module, students will be able to...*

1. Critically apply knowledge and understanding of the research process to justify the chosen approach to a primary research project.

2. Critically defend selection of hypothesis/ research questions, sampling, data collection and analysis methods.

3. Critically consider and address the potential ethical issues associated with the research project.

4. Demonstrating a thorough, critical and systematic approach to the literature review, sampling, data collection and analysis methods.

5. Demonstrate competence in the application of data analysis methods and interpretation of findings.

6. Formulate appropriate and balanced conclusions and recommendations to inform professional practice.

7. Demonstrate project and time management skills.

8. Demonstrate independent and autonomous learning and the ability to problem solve.

9. Communicate professionally with peers through development of a journal publication/ poster presentation.

**Learning, Teaching and Assessment Strategy**

The module will commence with an introductory day and a follow on day, revisiting the key elements of the research process and article/ poster preparation LO1,2. Students will be allocated a supervisor who will advise and guide them through the project including submitting documentation for ethical approval LO2,3,4,5. Students will be expected to direct their own study whilst undertaking a research project using the online resources available LO6,7. Feedback on progress will be provided either through electronic communication or individual tutorials.

Assessment mode 1 will assess LO 1-7. Assessment mode 2 will assess LO 5,6,7,8.
