Module Aims

To introduce students to the clinical environment and build upon this experience through reflection. The students should be able to use knowledge, clinical reasoning skills and evidence-based practice to undertake physiotherapy assessment and utilise therapeutic skills in the efficient and effective application of physiotherapy management appropriate to their level of study and do this in a professional manner.

Outline Syllabus

Preparation, learning, reflection and experience appropriate to credit rated level 5 practice placement.
Learning Outcomes

1. Use a sound knowledge base to inform clinical reasoning
2. Integrate assessment findings with best evidence
3. Use knowledge, available evidence & assessment findings to plan & justify appropriate treatment
4. Use assessment findings to produce an appropriate problem list
5. Use awareness of cultural, sociological and psychological factors to modify approach to service users
6. Integrate knowledge of own & other health worker roles into patient management plans
7. Demonstrate knowledge and understanding of ethical, legal & professional issues within Inter-Professional teams
8. Conduct a subjective examination obtaining relevant info from a range of sources
9. Conduct an objective examination using appropriate tests/procedures
10. Apply safe, effective appropriate treatment
11. Analyse, evaluate & progress treatment using appropriate outcome measures
12. Build patient education & self-management into treatment
13. Undertake practice that reflects expectations of service users
14. Reflect on practice, outcomes of interventions & how this contributes to service development
15. Analyse human factors theory & its implications for Inter-Professional team
16. Complete tasks within an appropriate time frame.
17. Undertake a flexible approach to working practice in relation to others and the needs of the service.
18. Negotiate & develop learning strategies with the Practice Educator.
19. Complete timely, appropriate written communication including patient notes.
20. Maintain patient safety by sharing information appropriately with others
21. Reflect on the impact that human factors can have upon your own professional practice.
22. Behave in a professional manner in accordance with HCPC standards of professional conduct & ethics

Learning, Teaching and Assessment Strategy

The first practice placement will be a credit rated (180 hr) in the University's Physiotherapy & Sport Rehab clinic. This must be passed before undertaking another 180 hour credit rated placement. One must be passed before undertaking the next. Students are required to meet the standards of professional conduct, performance & ethics (HCPC) LO 22. Failure to meet these standards on any of the placements will constitute a fail, with a capped mark of 35 on the credit rated placements. Formative assessment & feedback will be given at midway (90 hours) of each practice placement to facilitate reflection, preparation for summative assessment & self-assessment.

Practice placement learning will bring together all the learning to demonstrate that all elements of the learning outcomes (LOs 1-22) have been achieved & assessed though Modes of assessment 1 & 2. Group and individual reflection following each placement is encouraged & facilitated using e-portfolio reflective tools. Students will have a choice regarding assessment 3 of the module. Assessment mode 3 will assess LOs, 13, 14, 18, 21. Note: to meet professional requirements students must undertake 360 hrs on placement.

To access the reading list for this module, please visit [https://bradford.rl.talis.com/index.html](https://bradford.rl.talis.com/index.html).

**Please note:**

This module descriptor has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but minor changes may occur given the interval between publishing and commencement of teaching. Upon commencement of the module, students will receive a handbook with further detail about the module and any changes will be discussed and/or communicated at this point.
