Module Aims
To introduce you to the latest developments in applied contemporary economics to allow you to develop a deep understanding of current economic issues & arguments that dominate contemporary debates and policy making.

Outline Syllabus
Topics to be drawn from across a range of contemporary economics issues, inter alia: economics crises (the Global Financial Crisis, the euro zone / sovereign debt crisis); contemporary economic problems (the twin deficit problem, savings-investment correlation in euro zone periphery, capital mobility, solvency and external deficit sustainability); the economic relationship between the UK and EU; contemporary economic policy making (New Consensus in Macroeconomics: monetary & fiscal policy, Post-Keynesian economics: money multiplier & debt dynamics); international trade (policy, global trade imbalances, regional integration, globalisation, inequality); macroeconomic uncertainty/stability; exchange rate volatility/determination.

Learning Outcomes	
Outcome Number	Description
01	1a) Understand the underlying foundations for contemporary issues in economics. 1b) Understand the theoretical and applied aspects of contemporary economic policy making. 1c) Be conversant with the most recent major developments in economics in the national and global context.
02	2a) Critically evaluate a range of contemporary economic issues in terms of their causes and consequences. 2b) Appreciate the alternative interventionist policy implications in relation to a range of contemporary economic issues.
03	Demonstrate written presentation skills; accessing of library and IT resources.

Learning, Teaching and Assessment Strategy
Contemporary issues in economics will be presented and discussed in online lectures and you will critically examine these applied contemporary economic issues and reflect on their contradictions and drawbacks, reviewing the advanced literature and how it deals with these.
