Module Aims
<p>The emergence of internet enabled digital and social media platforms have fundamentally changed the way in which organisations communicate with stakeholders and engage in marketing activities. This internet marketing course focuses on the practical application of social media and digital marketing tools in organisations with the aim of setting up and maintaining a presence in the digital and social world. Organisations of all size can leverage on digital and social media channels for marketing opportunities, but they need experts with necessary expertise to use them effectively. Therefore, this module aims to build on students existing marketing knowledge to enable them to critically evaluate and harness the power of various digital and social media platforms for successful marketing.</p>

Outline Syllabus

Understanding Digital and social media concepts.
 Identifying business needs
 Digital and Social media marketing strategy
 Campaign planning and project management
 Developing effective digital presence
 Search engine optimisation
 Social Media
 Content marketing
 Paid Advertising: Search, social, and affiliate
 Measuring brand awareness, campaign evaluation, and web analytics

Learning Outcomes

Outcome Number	Description
01	Describe and understand the core concepts of digital and social media marketing.
02	2a) Critically evaluate multiple channels available for digital and social media marketing. 2b) Provide a rationale for using various internet-based marketing channels and formulate a digital and social media marketing strategy. 2c) Describe methods for measuring digital and social media marketing strategies.
03	3a) Critically assess organisations use of internet channels for marketing. 3b) Appreciate the strengths, weaknesses, opportunities, and threats posed by internet enabled channels for marketing. 3c) Use your skills to apply creative thinking to problem solving and developing solutions within group working.

Learning, Teaching and Assessment Strategy

The delivery of the module will be through blended lectures, seminars and directed studies. The blended approach will combine online lectures, and a mix of online and face-to-face on-campus tutorials. Knowledge is disseminated in lectures with tutorial support, in the form of case study, debate and tutor-led interactive sessions to discuss the development of individual projects. Formative verbal feedback is provided in tutorial sessions.

Lectures and assigned readings are used to disseminate materials exploring theory, concepts and techniques in Digital and social media marketing, In tutorials you will work in groups, analyse campaigns and case studies preparing and presenting solutions to marketing challenges. All Learning Outcomes are supported by lectures, tutorials and associated reading.

□ LOs 1, 2abc, and 3ab are summatively assessed by an individual assignment

LO 3c is formatively assessed within tutorial activities.

Mode of Assessment

Type	Method	Description	Length	Weighting
