Learning, Teaching and Assessment Strategy
<p>All sessions are delivered online using digital legal resources and appropriate learning technologies. The Virtual Learning Environment (VLE) for each module is the hub of knowledge through which all module materials are accessed and where a big part of student work takes place.</p> <p>The module will be delivered over 12 weeks 6 of which will include synchronous learning and 6 asynchronous. Synchronous learning, which involves student interaction with module lecturers and tutors, includes 4 2-hour "live" weekly seminars focusing on delivering content, clarifying issues on the law topics, and discussing answers to student tasks. Two additional 2-hour synchronous seminars will focus on the design of and preparation for the summative assessment, module revision, and the collection and review of student feedback which will be used to improve module delivery.</p> <p>The six weeks of asynchronous learning include a mix of learning activities such as pre-recorded online presentations or talks on a particular topic, links to relevant videos and online resources and lists of questions and tasks for self-study. You can watch the presentations, videos and work on the answers and tasks at your own time.</p> <p>The learning materials and activities (synchronous and asynchronous) cover the underlying theory and consider issues of critical evaluation of the law through a combination practical questions and case studies. Successfully completing tasks set requires independent legal research drawing on variety of both primary and secondary materials and written and oral presentations by you.</p> <p>Oral feedback is given in the class during the live sessions and opportunities for written feedback are provided. A formative assessment will be made available to help you better prepare for the summative assessment. An online module manual provides an outline of the module structure, content, learning and teaching strategy and assessment format.</p> <p>The manual is complemented by more detailed study guides which provide guidance on the topic of the weekly study and contain the learning materials (pre-recorded lectures, slides, tutorial tasks, self-study tasks) the reading lists, and other useful information for each week.</p>
