You can watch the presentations, videos and work on the answers and tasks at your own time.</p> <p>The learning materials and activities (synchronous and asynchronous) cover the underlying theory and consider issues of critical evaluation of law through a combination practical questions and case studies. Successfully completing tasks set requires independent legal research drawing on variety of both primary and secondary materials and written and oral presentations by you.</p> <p>Oral feedback is given in the class during the live sessions and opportunities for written feedback are provided.
