Module Aims
To develop understanding of business models and the 'circular economy' in a variety of context including your own professional roles and forward plans. To provide you with an opportunity to design, use and apply business models in support of business problem appraisal and decision making.

Outline Syllabus
Business models, business model innovation and business model canvas;

Learning Outcomes	
Outcome Number	Description
01	Review and evaluate different business models for a circular economy
02	Critically appraise a circular economy business model and assess its potential translation into a new or different setting of relevance to your professional role with reference to key enablers and barriers.
03	Assess the implications of different business models with reference to key business activities around strategy, finance, marketing, operations management, leadership and people management
04	Generate a strategy to develop circular economy business models within your professional setting
05	Assemble, co-ordinate and review living system analogies and thinking to a range of settings

Learning, Teaching and Assessment Strategy
<p>You will engage in learning through a series of directed study activities and online tutorials. The study guide and textbook readings supported by audio recordings and powerpoint slides will introduce important concepts. Structured tutorial exercises will provide you with the opportunity to develop your understanding of key concepts and ideas LOs 1-3. Online tutorial sessions will enable you to engage in debate with your peers and tutor about important ideas and contemporary business problems.</p> <p>LOs 1-5 are assessed through a single written assignment and require you to demonstrate knowledge and understanding of business models within circular economy perspectives and propose a business model for a given business or sector wide framework.</p>

Mode of Assessment			
Type	Method	Description	Weighting
