

Programme Specification

Programme title: BSc (Hons) Psychology

<https://www.bradford.ac.uk/courses/ug/psychology-bsc/>

Academic Year:	2025/26
Degree Awarding Body:	University of Bradford
Partner(s), delivery organisation or support provider (if appropriate):	
Final and interim award(s):	<p>BSc (Honours) Psychology</p> <p>[Framework for Higher Education Qualifications (FHEQ) level 6]</p> <p>BSc (Ordinary)</p> <p>[Framework for Higher Education Qualifications (FHEQ) level 6]</p> <p>Diploma of Higher Education</p> <p>[Framework for Higher Education Qualifications (FHEQ) level 5]</p> <p>Certificate of Higher Education</p> <p>[Framework for Higher Education Qualifications (FHEQ) level 4]</p>
Programme accredited by (if appropriate):	The British Psychological Society (BPS)
Programme duration:	<p>(UCAS code C801) 3 years full-time</p> <p>(UCAS code C802) 4 years full-time with placement year or study abroad</p> <p>(UCAS code C80F) 4 years full-time (international incorporated foundation)</p>
QAA Subject benchmark statement(s):	<ul style="list-style-type: none"> Psychology (QAA 2019)

Minor Modifications Schedule

1. March 2024: Annual review, minor wording update and withdrawn modules removed.
2. May 2025: Annual Review, changes to optional modules for Stage 1 and Stage 3 and electives no longer available and changes to the academic regulations.

Please note: This programme specification has been published in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publication, but changes may occur given the interval between publishing and commencement of teaching. Any change which impacts the terms and conditions of an applicant's offer will be communicated to them. Upon commencement of the programme, students will receive further detail about their course and any minor changes will be discussed and/or communicated at this point.

Introduction

The scientific and empirical study of psychology is a comparatively new academic discipline and yet it has become one of the most popular undergraduate programmes in the UK. Many career options and professions utilize the skills and knowledge acquired in the study of psychology, and for many people this provides invaluable practical advice and self-discovery.

To train as a practitioner psychologist, a Psychology degree which is accredited by the British Psychological Society (BPS), such as this one, is an essential first step. The BSc (Hons) Psychology course is accredited by The British Psychological Society and aligns to their curriculum guidelines (BPS 2019). Accreditation means that, upon completion of the degree, and providing that a student achieves the minimum standard of qualification of second-class honours and passing the final year research project, they would be eligible for Graduate Membership of BPS, with the Graduate Basis for Chartership. BPS graduate membership will mean you will be eligible to undertake further studies and training in-order to pursue highly competitive and high-status psychology professions, such as Forensic Psychology, Educational Psychology, and Clinical Psychology.

However, most graduates pursue a variety of careers for which psychology provides excellent preparation. The programme is also suitable if students are interested in Psychology as a subject but not necessarily committed to a career as a psychologist. The programme spans science and the humanities, and therefore provides key transferable skills relevant to a variety of careers. For example, should students want to work in health care, child development (e.g., nurseries), education, personnel management, market research, advertising, broadcasting, nursing, the police, the Civil Service and Armed Forces, a psychology degree would provide a sound foundation.

Teaching excellence is a priority for the Faculty of Management, Sciences & Engineering, and several divisions hold QAA subject review scores at the top of the ranking scales. Teaching is informed and supported by a commitment to research; the departmental staff consists of researchers who bring expertise from their ongoing academic studies to the lectures and laboratory classes.

Programme Aims

The programme is intended to:

- A1. Apply scientific principles generally, and specifically in understanding the mind, brain, behaviour and experience and the complex interactions between these.
- A2. Present multiple perspectives and consider the inter-relationship of psychological knowledge in a way that fosters critical evaluation.
- A3. Evaluate the role of empirical evidence in the creation and constraint of theory as well as how theory guides the collection and interpretation of data.
- A4. Apply ethical principles and a range of research skills and methods to the investigation of experience and behaviour, culminating in the ability to conduct research independently.
- A5. Critically evaluate theory, research findings and recognise the transformative nature of psychology as well as its real-life applications.
- A6. Apply employability-related and personal transferable knowledge and skills to be able to progress to advanced study in psychology, psychology-related employment or to move into employment or further study that do not require psychology subject specific skills.
- A7. Apply the principles of psychological literacy by demonstrating an awareness of self and others and developing the potential to become ethical, socially, and environmentally responsible participants in their communities/society, beyond university and employment.

Programme Learning Outcomes

To be eligible for the award of Certificate of Higher Education at FHEQ level 4, students will be able to:

1. Describe the scientific underpinnings of psychology as a discipline, identifying that psychology involves a range of perspectives, research methods, theories, and evidence.
2. Describe a range of influences on psychological behaviour, functioning and experience and identify how they are conceptualised and interpreted across the core areas of psychology.
3. Explain the nature and role of research hypotheses and research questions.
4. Present, evaluate and interpret quantitative and qualitative data.
5. Identify and discuss ethical issues in psychology.
6. Communicate effectively using a range of written, oral, and visual means to present structured, coherent, and evidence-based arguments.
7. Utilise information technology to further their own learning, including using specialist psychological software.
8. Work individually and as part of a team identifying contextual and interpersonal factors.

9. Engage in reflection as related to academic and professional development.
10. Recognise the sustainability agenda in its broadest sense e.g., in relation to communities.

Additionally, to be eligible for the award of Diploma of Higher Education at FHEQ level 5, students will be able to:

11. Critically analyse the scientific and philosophical underpinnings of psychology.
12. Critically consider multiple perspectives when problem solving within appropriate psychological domains.
13. Critically evaluate a number of specialised areas, applications, perspectives, theories and ethical issues including social, developmental, psychobiological, cognitive and individual difference.
14. Generate research hypotheses and research questions in relation to theories and concepts.
15. Generate, analyse and present quantitative and qualitative data including a reflection on ethical issues in psychological research.

Additionally, to be eligible for the award of Honours Degree of Bachelor at FHEQ level 6, students will be able to:

16. Critically evaluate a range of theories and concepts within a specialist area of psychology e.g., forensic, abnormal, health.
17. Present a systematic and critically evaluative review of contemporary psychological literature within at least one of the core domains of psychology.
18. Initiate, design, conduct and report an independent, empirically based, and ethical research project under appropriate supervision.

Learning and Teaching Strategy

The teaching, learning and assessment strategy aims to develop active learning and takes into consideration the need for students to take greater responsibility for their own learning as they progress through the programme.

Students will be exposed to a variety of different learning and teaching approaches and activities in a blended environment. This will include a mixture of online and face to face activities. Specifically, knowledge and understanding as well as transferable skills will be developed through:

- Lectures – may be online or face to face
- laboratory/workshops
- team-based learning sessions
- seminars (e.g., problem/discussion based)
- tutorials
- projects/dissertations
- directed and self-directed study
- assessment-based learning (formative and summative)
- problem based learning
- collaborative learning and group work
- peer mentoring

Our approach is underpinned by research-led teaching which includes being exposed to the specialist research interests and practices of our academic team as well being informed by educational research.

Assessment Strategy

Assessment is integrated throughout to meet the programme and associated module learning outcomes. Students will initially be exposed to 'low stakes' small-scale tasks, early in the programme that aim to provide timely and developmental feedback that feeds forward. These include, for example, team-based activities in Stage 1 where students will apply knowledge to make decisions about, for example, how best to a theory can be used in the real world.

All assessments promote psychological learning and good academic practice, within which progressive understanding and higher order learning is evaluated, such as analysis, synthesis and evaluation, as a mainstay. Throughout the programme, a wide enough variety of assessment methods are employed to ensure that sufficient opportunity to demonstrate achievement is afforded to all students regardless of their individual learning approaches. However, at the same

time the breadth of assessment methods employed is not so varied as to be burdensome or confusing in themselves.

Assessment methods include:

- essays
- research articles
- portfolios
- posters
- group presentations
- examinations
- dissertation
- Team-based application exercises

Progressive complexity and demands are built into the programme of study, for example short research articles at Stage 1, working up to more substantial research articles at Stage 2, and an even more substantial research article at Stage 3. There is also a focus on synoptic assessment (assessing the synthesis of knowledge, skills and abilities developed through the programme). For example, the final year research project at Stage 3 consolidates and further develops research methods skills and abilities and subject specific knowledge gained earlier in the programme.

Formative feedback will be used to help students to develop their academic skills. At Stage 1 students will complete activities in teams and share and discuss their answers and have the opportunity to receive peer evaluations about their contribution from team members. In addition, there will be the opportunity for Peer Assisted Learning. Feedback will also be given during Stages 1 and 2 research methods laboratory classes, via the provision of weekly timetabled help sessions by our Learning Support Officers and through online quizzes. At Stage 3, you will have the opportunity for feedback on a draft of your research proposal for your dissertation as well as a draft of most of your final dissertation.

Students will be encouraged to engage with both formative and summative feedback as an effective way of understanding their grades and how to improve them. Exemplars are also used in teaching contexts to help students understand assignments and how to do them well. For example, in the Psychology of Health and Eating, good examples of the notes and reflections element of the assessment are given and discussed in class.

Students will also engage in self and peer reflection and assessment. For example, in Thinking Psychologically at Bradford, Understanding Social Development; and in the Psychology of Health and Eating through reflections on presentations.

Transferable skills and employability skills are assessed, some examples being (but not limited to): handling data in research methods and other modules; presenting and communicating in many

modules; using case studies to explore issues; reflection; independence; and reflection on psychology relevant occupations in Thinking Psychologically at Bradford and in Psychology Life Skills and Employability.

Curriculum

The programme consists of 360 credits, made up of core and optional modules. Students will take 120 credits at each stage, with modules taught across the 'academic year' or within Semester 1 or Semester 2.

Stage 1

In the first stage students will be given an introduction to a number of 'core' subjects such as, cognitive psychology, psychobiology, individual differences, social psychology and lifespan development and research methods. These core areas will be covered in the modules Brain and Behaviour, Understanding Social Development and Introduction to Research Methods. Practical classes will give students training in research methodologies and methods: specifically, quantitative, laboratory-based and experimental approaches as well as an introduction to qualitative approaches.

Alongside these core areas students will be introduced to historical aspects and debates within psychology in the module Conceptual Issues in Psychology and Mental Health. The module Thinking Psychologically at Bradford will introduce students to the Department of Psychology at Bradford, including the academic staff and their research; ensure that students develop their understanding of how to think like a psychologist, the ability to evaluate and manage their own learning as well as to start to engage in employability activities.

Table 1: Psychology Stage 1 Core Modules (CertHE)

Study Period	Code	Title	Credit	Level
Academic Year	PSY4006-B	Introduction to Research Methods in Psychology	20	FHEQ 4
Academic Year	PSY4011-B	Thinking Psychologically at Bradford	20	FHEQ 4
Semester 1	PSY4009-B	Brain and Behaviour	20	FHEQ 4
Semester 1	PSY4012-B	Conceptual Issues in Psychology and Mental Health	20	FHEQ 4
Semester 2	PSY4010-B	Understanding Social Development	20	FHEQ 4

Students also select one 20-credit module in Semester 2 from the list below :

Table 2: Psychology Stage 1 Optional Modules (CertHE)+

Study Period	Code	Title	Credit	Level
SEM2 Option	PES4022-B	Peace and violence: Theories, Cases, and Challenges	20	FHEQ 4
SEM2 Option	PSY4013-B	Sport and Exercise Psychology and Coaching Psychology	20	FHEQ 4
SEM2 Option	SAC4026-B	Crime and the Media	20	FHEQ 4

Please note: The curriculum may change, subject to availability and the University's programme approval, monitoring and review processes.

At the end of stage 1, students will be eligible to exit with the award of Certificate of Higher Education if they have successfully completed at least 120 credits and achieved the award learning outcomes.

THIS AWARD DOES NOT CONFER ELIGIBILITY TO REGISTER FOR THE GRADUATE BASIS FOR CHARTERED MEMBERSHIP (GBC) OF THE BRITISH PSYCHOLOGICAL SOCIETY.

Stage 2

In the second stage, students will study the core areas of psychology in more depth. There is greater emphasis on original practical work, and they will start to design and carry out their own investigations either in the Psychology Laboratories or in an online environment. Students will continue to develop methodological skills with experimental and qualitative methods.

Students study 100 core credits:

Table 3: Psychology Stage 2 Core Modules (DipHE)

Study Period	Code	Title	Credit	Level
Semester 1	PSY5008-B	Cognitive Psychology	20	FHEQ 5
Semester 1	PSY5010-B	Social Psychology	20	FHEQ 5
Semester 2	PSY5017-B	Further Research Methods in Psychology	20	FHEQ 5
Semester 2	PSY5015-B	Lifespan and Individual differences	20	FHEQ 5
Semester 2	PSY5009-B	Psychobiology and Neuroscience	20	FHEQ 5

and select 1 optional module in Semester 1:

Table 4: Psychology Stage 2 Optional Modules (DipHE)

Study Period	Code	Title	Credit	Level
SEM1 Option	PES5018-B	Analysing Contemporary conflict	20	FHEQ 5
SEM1 Option	PSY5016-B	CBT and Positive Psychotherapy	20	FHEQ 5
SEM1 Option	SAC5018-B	Legal and Moral Constructions of Crime and Criminal behaviour	20	FHEQ 5
SEM1 Option	SAC5017-B	Psychology and Crime: Victims and Offenders	20	FHEQ 5
SEM1 Option	SAC5026-B	Understanding Race and Ethnicity	20	FHEQ 5

Please note: The curriculum may change, subject to availability and the University's programme approval, monitoring and review processes.

At the end of stage 2, students will be eligible to exit with the award of Diploma of Higher Education if they have successfully completed at least 240 credits and achieved the award learning outcomes.

THIS AWARD DOES NOT CONFER ELIGIBILITY TO REGISTER FOR THE GRADUATE BASIS FOR CHARTERED MEMBERSHIP (GBC) OF THE BRITISH PSYCHOLOGICAL SOCIETY.

Continuing students may elect to arrange an integrated period of work or study abroad within a year between Stage 2 and Stage 3. For more details, see the **Placement and Study Abroad Experience Options** section.

Stage 3

In stage 3, a substantial feature of Year 3 is the final year project in which students independently design and undertake an original piece of empirical research in one-to-one supervision with an academic member of staff.

Students study 40 core credits at Stage 3:

Table 5: Psychology Stage 3 Core Modules (BSc)

Study Period	Code	Title	Credit	Level
Academic Year	PSY6009-D	Research Project in Psychology	40	FHEQ 6

Students will gain a more in-depth and specialised understanding of psychology through the selection of specific modules. There are optional modules outside

psychology, which can provide an opportunity to apply your psychological skills to a new area outside psychology, subject to timetabling requirements, . more specialised knowledge from these options will reinforce accumulated knowledge in preparation for the final year project.

Students select 80 credits of optional modules at Stage 3, usually as two optional modules in Semester 1/ACYR and two optional modules in Semester 2:

Table 6: Psychology Stage 3 Optional Modules (BSc)

Study Period	Code	Title	Credit	Level
ACYR Option	PSY6011-B	Psychological Life Skills and Employability	20	FHEQ 6
SEM1 Option	PSY6008-B	Advanced Issues in Child Development in Education Contexts	20	FHEQ 6
SEM1 Option	PSY6003-B	Advanced Issues in Neuropsychology	20	FHEQ 6
SEM1 Option	PSY6016-B	Clinical Psychology and Mental Health	20	FHEQ 6
SEM2 Option	PSY6001-B	Forensic Psychology	20	FHEQ 6
SEM2 Option	PSY6005-B	The Psychology of Health and Eating	20	FHEQ 6
SEM2 Option	SAC6025-B	Globalisation, Migration and Refugees	20	FHEQ 6
SEM2 Option	SAC6023-B	Educational Transitions	20	FHEQ 6

i

Please note: The curriculum may change, subject to availability and the University's programme approval, monitoring and review processes.

Students will be eligible to exit with the award of Ordinary Degree of Bachelor if they have successfully completed at 120 credits at Stage 1, 120 credits at Stage 2 and achieved a pass mark of 40% or higher in 60 credits of FHEQ Level 6 or higher modules.

THE ORDINARY DEGREE OF BACHELOR AWARD DOES NOT CONFER ELIGIBILITY TO REGISTER FOR THE GRADUATE BASIS FOR CHARTERED MEMBERSHIP (GBC) OF THE BRITISH PSYCHOLOGICAL SOCIETY.

Students will be eligible for the award of Honours Degree of Bachelor if they have successfully completed at least 360 credits and achieved the award learning outcomes.

The award BSc (Hons) Psychology confers eligibility for the graduate basis for Chartered Membership (GBC) of the British Psychological Society provided the empirical project is passed and the minimum standard of a 2:2 is achieved.

Placement and Study Abroad Experience Options

Placement (Psychology) (PSY5014-Z)

This programme provides the option for students to undertake a work placement between Stages 2 and 3. Students wishing to take this option will be transferred to the 4-year programme and will complete module PSY5014-Z Placement. The option to undertake the placement year is subject to the student passing all 120 credits of Stage 1 and all 120 credits Stage 2 and therefore students who register on this programme are not permitted to undertake placement with referred credit.

The placement that students undertake must be relevant to the programme of study. Transfer to the 4-year programme and the approval of the placement are subject to a meeting between the Student, Personal Academic Tutor (PAT) and Programme Leader to ensure that the placement is relevant to the programme of study. There are no requirements for students to achieve an average threshold to undertake the placement year, although international students should take care to ensure that any such period of placement is permitted under the conditions of their student visa. However, students will have to have completed and passed all stage 1 modules.

Like many programmes, it will be the student's responsibility to find the placement; Students will be provided support by the Careers and Employability Service. The Psychology Academic Staff will inform all students of any placement opportunities that arise.

Sandwich Year - Study Abroad Experience (PSY5000-Z)

This programme provides the option for students to undertake study abroad between Stages 2 and 3. Students wishing to take this option will be transferred to the 4-year programme and will complete module PSY5000-Z Study Abroad. The option to undertake study abroad is subject to the student passing all 120 credits of Stage 1 and all 120 credits Stage 2 and therefore students who register on this programme are not permitted to undertake study abroad with referred credit.

The study abroad that students undertake must be relevant to the programme of study. Transfer to the 4-year programme and the approval of study abroad are subject to a meeting between the Student, Personal Academic Tutor (PAT), and Programme Leader to ensure that study abroad is relevant to the programme of study. There are no requirements for students to achieve an average threshold to undertake the placement year. However, students will have to have completed and passed all stage 1 modules. Like many programmes, it will be the student's

responsibility to find the study abroad opportunity in liaison with the International Opportunities Team.

Students can opt to study abroad for one year in one of over 20 partner institutions, ranging from Canada and the USA to The Netherlands, France, Spain, Sweden, India, Oman and more. Students will also have support from their Programme Leader, Programme Team and the University International Opportunities Team in making plans and identifying the best options to meet their requirements and during their year abroad.

The list of exchange partners and network of universities available for Study Abroad Year, as well as further information about international opportunities can be found online at: <https://unibradford.ac.sharepoint.com/sites/opportunities-abroad-intranet/SitePages/Worldwide-Exchanges.aspx>

Study Abroad Semester and Short International Opportunities

This programme is not eligible for opportunities to study a single semester at another University due to the requirements of BPS accreditation. Students can still explore opportunities for short international activities (1-6 weeks) that are held over the summer periods by speaking to the University International Opportunities team

Assessment, Continuation and Award Regulations

This programme follows the Assessment, Continuation and Award regulations published on the University's website (<https://www.bradford.ac.uk/about/legal-and-governance/governance/regulations/>) for undergraduate courses (Regulation 2).

Admission Requirements

We take into consideration a number of factors when assessing your application. It's not just about your grades; we take the time to understand your personal circumstances and make decisions based on your potential to thrive at university and beyond. Consideration of applications will be based on a combination of formal academic qualifications and other relevant experience.

A typical offer to someone seeking entry through the UCAS scheme is around **112 points** to include **2 full A-Levels**, with **GCSE Maths and English grade 4 (national Grade C)** or above, or equivalent in other qualifications.

On completion of a UCAS form students will be invited to the Faculty for an Open Day when they will have the opportunity to meet staff, view the facilities and discuss “the Bradford experience” with current students.

The standard requirements for international students apply for English language and numeracy. Visit the website <https://www.bradford.ac.uk/international/country/> for details of accepted equivalent qualifications from your country.

If you do not meet the University requirement of English proficiency equivalent to IELTS 6.0 standard, you may be able to study a pre-sessional English language course with us here in Bradford: www.brad.ac.uk/courses/other/pre-sessional-english-language-programme/

Access and Recognition of Prior Learning

Applications are welcome from students with non-traditional qualifications, and/or significant personal/professional experience.

The University of Bradford has always welcomed applications from disabled students. To discuss adjustments or to find out more about support and access, you may wish to contact the Disability Service before you apply at: www.bradford.ac.uk/disability/before/

Applications are particularly welcomed from adult learners (those aged 21+ at the start of the programme), armed forces families, carers and care leavers, estranged or orphaned learners, refugees and asylum seekers, and Romani or Traveller families. To find out more about the University of Bradford Progression Scheme, visit the webpage: <https://www.bradford.ac.uk/applicants/progression-scheme/>

If applicants have prior certificated learning or professional experience which may be equivalent to parts of this programme, the University has procedures to evaluate and recognise this learning in order to provide applicants with exemptions from specified modules or parts of the programme. We recommend you contact the Programme Administration team before you do so as some modules are not eligible for accreditation of prior learning under the accreditation requirements. For more details visit our RPL webpage at: <https://www.bradford.ac.uk/teaching-quality/prior-learning/>

Please note: This admission information is relevant to the contemporary recruitment cycle and therefore may be different to when this document was originally published. The UCAS tariff applicable may vary and is published here <https://www.bradford.ac.uk/courses/ug/psychology-bsc/>
